TEXAS TRANSPORTATION COMMISSION

HOUSTON AND POLK Counties **MINUTE ORDER**

LUFKIN District

The Texas Transportation Commission (commission) under provision of Texas Transportation Code §621.102, may set the maximum gross weight of a vehicle and its load, maximum gross weight of a combination of vehicles and loads, maximum axle load, or maximum wheel load that may be moved over a state highway or a farm or ranch road if the commission finds that heavier maximum weight would rapidly deteriorate or destroy the road.

Pursuant to §621.102, a maximum weight or load may not exceed the maximum set by statute for that weight or load. This section does not apply to a vehicle delivering groceries, farm products, or liquefied petroleum gas.

An engineering and traffic investigation has been made on the state highway system to determine and fix the maximum loads to be transported or moved on, over or upon the roads of the highway system.

It has been determined from this investigation that the loads on certain sections of roads of the state highway system should be restricted or previous restrictions should be revised or removed.

IT IS THEREFORE ORDERED by the commission that the maximum load limits which may be transported or moved on, over or upon the roads described in Exhibits A and B be fixed, revised, or removed for the month of July 2006, as set forth therein, superseding any portion of a previous action in conflict. The executive director shall proceed with the erection, revision or removal of signs as appropriate, making the removal of this load limitation effective and operative.
