2006-2008 TRANSPORTATION IMPROVEMENT PROGRAM
AMENDMENT NUMBER 98A

The FTA requires that the project budgets listed in the Transportation Improvement Program (TIP) match the project budgets submitted in each urbanized/rural area's grant application. Since the TIP budgets are estimates, a TIP revision is required each year to align the project budgets. The Gulf Coast Center would like to adjust their budgets for Galveston and Brazoria Counties Rural Programs to reflect their grant applications. Amendment 98 approved on April 28, 2006, revised these budgets and moved $307,596 of the federal allocation to Operations Expenditures and deprogrammed Capital and Administrative Expenditures. The amendment should have reflected an additional $307,596 in federal allocation for Operations Expenditures. The Gulf Coast Center's fiscal year 2006 funding budget reflects fiscal year 2005 and fiscal year 2006 federal funding and fiscal year 2006 state funding. This amendment is to correct the budgets for Gulf Coast Center's section 5311 programs and does not change the federal apportionments.

SURFACE TRANSPORTATION PROGRAM (STP) METROPOLITAN MOBILITY/REHAB (CATEGORY 7)

Project CSJ 3050-03-005 is listed in the 2006-2008 Transportation Improvement Program (TIP) on page 2-28. It is funded with Surface Transportation Program (STP) Metropolitan Mobility/ Rehabilitation (Category 7) funds, and is scheduled for letting in March 2007.

Due to right-of way delays, TxDOT is requesting to split out the detention ponds to CSJ 3050-03-015. This will allow the letting for project CSJ 3050-03-005 to proceed on schedule. The detention ponds (CSJ 3050-03-015) will let well into the roadway construction. The total available Category 7 funds remain the same. Also at this time, TxDOT is requesting to transfer $800,000 from CSJ 3050-03-005 into CSJ 3050-03-015 for construction of the detention ponds.

CONGESTION MITIGATION AIR QUALITY IMPROVEMENT FUNDS (CATEGORY 5)

In April 2006, project CSJ 0912-72-096 was added to the 2006-2008 Transportation Improvement Program (TIP). This Regional Computerized Traffic Signalization System (RCTSS) project is funded with Congestion Mitigation and Air Quality Improvement (CMAQ) Category 5 funds, and is scheduled to let in October 2006.

The number of locations for the signalization improvements has changed from 43 locations to 42. Since the number of locations is subject to change again before letting, at this time, TxDOT is requesting to modify the project limits to read Various Locations rather than specifying a number of locations. The funding has not changed.

2006-2008 TRANSPORTATION IMPROVEMENT PROGRAM
AMENDMENT NUMBER 105

Background:

In 2003, voters in the service area of the Metropolitan Transit Authority of Harris County (METRO) approved METRO Solutions, a comprehensive long-range transit plan that provides a series of technologies and services to address the varying mobility needs of specific corridors and communities through 2025. A major hub for this system will be an intermodal facility, called the Intermodal Terminal, which will provide commuters with easy transfer among many different transit modes and providers. Ultimately, the proposed facility will serve as a major transportation hub for Houston enabling residents, visitors, and workers to transfer easily among the different modes of transit - buses, light rail, bus rapid transit, commuter rail, airport shuttles, taxis, and national passenger rail (AMTRAK).

Project Definition:

The proposed Intermodal Terminal (IT) would be a major transit hub, providing safe and convenient passenger access to, and connections among METRO Light Rail Transit (LRT), Bus Rapid Transit (BRT), and local bus service. The IT would include a METRO bus transit center with four bays, configured so as not to preclude expansion to 14 bays, and required parking would be provided.

Construction of the project is scheduled for completion by September 30, 2010. Potential expansion of the transit center from four to 14 bays would be dependent on environmental clearance of a commuter rail line and a passenger station at this site. Environmental clearance would include air-quality conformity analysis on the additional 10 bays.

Status of Work:

METRO, on behalf of the Federal Transit Administration (FTA), is now undertaking an Environmental Assessment (EA) to provide a fair and objective examination of all potential environmental impacts. The EA is being prepared on the definition of the project provided above. Thus far, there have been six stakeholder meetings and two public meetings with a combined attendance of over 200 people. In addition, the need for a facility such as the IT has been discussed for some time in Houston, so comments received regarding the project have been positive.

At this time the Metropolitan Transit Authority would like to add the construction phase of the Intermodal Terminal into the 2025 RTP and into the Transportation Improvement Program's Appendix D: *Projects Undergoing Environmental Assessment.*

CONGESTION MITIGATION AND AIR QUALITY PROJECTS, CATEGORY 5

Project CSJs 0981-01-102 and 0981-01-103 are in the 2006-2008 Transportation Improvement Program (TIP) on page 2-27, and are scheduled for letting in September 2007. They are funded with Category 5 Congestion Mitigation and Air Quality funds.

Both projects are Computerized Transportation Management System (CTMS) projects, and will be let together as a single project. Therefore, at this time TxDOT is requesting to combine the two projects by changing the limits for project CSJ 0981-01-102, transferring the funds from project CSJ 0981-01-103 to CSJ 0981-01-102, cancelling project CSJ 0981-01-103 from the TIP, and delaying project CSJ 0981-01-102 to FY 2008.

CATEGORY 2 (METROPOLITAN AREA (TMA) CORRIDOR PROJECTS

Project CSJ 0177-05-058 is listed in the 2006-2008 Transportation Improvement Program (TIP) on page 2-7. It is funded with Category 2 Metropolitan Area (TMA) Corridor Project funds, Category 1 Rehabilitation funds, and Category 11 District Discretionary funds, and is scheduled to let in August 2006.

The environmental documents for the detention pond needed will not be ready by the letting date. Therefore, in order to avoid delaying the August 2006 letting for project CSJ 0177-05-058, TxDOT is requesting to split out detention pond CSJ 0177-05-105 from project CSJ 0177-05-058 and add it into the TIP. The detention pond will let well into the roadway construction. Also at this time, TxDOT is requesting to transfer $1.62 million in Category 2 funds from CSJ 0177-05-058 into CSJ 0177-05-105, and correct the limits for CSJ 0177-05-058. There is no change in total Category 2 funds.

Project CSJ 0271-06-106 is in the 2006-2008 Transportation Improvement Program (TIP) on page 2-6. It is funded with Category 2 Metropolitan Area (TMA) Corridor Project funds, and was to let in July 2006. Project CSJ 0271-07-274 was added to the 2006-2008 TIP in November 2005 with 2006-2008 TIP Amendment #56 and amended in February 2006 with 2006-2008 TIP Amendment #78; it is funded with Category 1 Preventative Maintenance/ Rehabilitation funds, Category 2 Metropolitan Area (TMA) Corridor Project funds and Category 12 Strategic Priority funds, and is scheduled for letting in October 2006. Project CSJs 0271-06-111 and 3510-05-013 are grouped projects (Appendix J, Statewide Programs, 2006-2008 TIP).

At this time, TxDOT is requesting to 1) transfer $5 million in Category 2 funds from CSJ 0271-06-106 into CSJ 0271-07-274 and increase the total Category 2 funds to $29 million; 2) split out project CSJ 0271-06-111 from project CSJ 0271-06-106 and add it and project CSJ 3510-05-013 to Appendix J, 3) transfer $2.2 million in Category 10 funds from 0271-06-106 to CSJ 0271-06-111; 4) transfer $0.3 million in Category 10 funds from 0271-06-106 to CSJ 3510-05-013; 5) cancel project 0271-06-106 from the 2006-2008 TIP, and 6) reduce the Category 1 funds in CSJ 0271-07-274 to $13.623 million.

METROPOLITAN AREA (TMA) CORRIDOR PROJECTS (CATEGORY 2)

Project CSJs 0178-01-026 and 0178-02-055 are in the 2006-2008 Transportation Improvement Program (TIP) on page 2-33, and were amended via TIP Amendment #53. They are funded with Category 2 funds and scheduled to let in FY 2008. The two projects are in the re-design process as English measurement units projects.

Also, in addition to the widening of FM 518 to Harris County Line, TxDOT wishes to add a right turn lane at Walnut Street, approximately 1250 feet from the intersection of FM 518. No extra work is being added on SH 35 from FM 518 to Walnut Street, other than the right turn lane.

Therefore, at this time TxDOT is requesting to update the limits for the two projects.

Rehabilitate Galveston Trolley and Bus Maintenance Facilities

FTA SECTION 5309: DISCRETIONARY

In 2004, The City of Galveston/Island Transit received a federal discretionary award for refurbishment of Island Transit's two maintenance facilities. TxDOT has already approved Toll Road Credits to meet the local share requirement for this project. During the 2004 TIP process, project was submitted for informational purposes to the MPO. However, when the City was preparing to draw down these funds in an FTA grant, it was discovered that a TIP amendment was still necessary. At this time, the City of Galveston respectfully requests this project be added to the 2006-2008 TIP and the funding be adjusted to reflect the actual award.
