

TEXAS TRANSPORTATION COMMISSION

SMITH County

MINUTE ORDER

Page 1 of 1

TYLER District

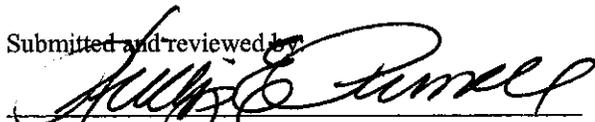

Title 43, Texas Administrative Code, §27.82(d) provides that the Texas Transportation Commission (commission) will establish toll rates for the use of a toll project on the state highway system. In setting toll rates, the commission considered: (1) the results of traffic and revenue studies and any schedule of toll rates established in a traffic and revenue report; and (2) vehicle classifications, type and location of the facility, and similar criteria that apply to a specific project.

The first five-mile segment of LP 49 opened to traffic in August, 2006 from SH 155 to US 69 as a two-lane, two-way facility. The second two-mile segment from US 69 to FM 756 is under construction with anticipated opening in 2007. This facility will provide traffic relief through the growing areas of Smith County and will use all-electronic, open-road tolling, including video tolling.

The results of the toll rate analysis for the initial two segments of Loop 49 provides toll rates at each tolling point as set forth in Exhibit A.

IT IS THEREFORE ORDERED by the Texas Transportation Commission that the department is authorized to charge tolls on the Loop 49 toll project from SH 155 to FM 756 in the amounts stated in Exhibit A.
