General

The Department reserves the right to conduct random sampling and testing, and visual inspections of materials from approved nonstressed member multi-project fabricators. Department representatives may sample and inspect material at the fabrication plant or the project site. CST/M&P reserves the right to test samples to verify compliance with Item 424.

The fabricator’s monogram stamp is only to be placed on TxDOT-inspected product. This stamp should not be placed on product for which TxDOT has not provided Quality Assurance inspection.

For more information, contact CST/M&P’s Structural Materials Branch at (512) 506-5924.

Refer to the next page for approved fabricator monogram stamps.
