

Surface Finishes for Concrete

NOTE: Refresh the page to view the most current list.

The following manufacturers for concrete surface finishes have complied with DMS-8110, "Coatings for Concrete." This Specification describes the procedure for pre-approval.

These manufacturers are pre-approved to supply the following products for use on Department projects and requisitions when DMS-8110 is referenced. The materials will require sampling and testing before use unless supplied from pretested stock. Tex-736-I, "Sampling Structural Coatings," describes the sampling method.

The Department reserves the right to conduct random sampling of pre-approved, certified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The Materials and Pavements Section of the Construction Division reserves the right to test samples to verify compliance with DMS-8110.
