

## Multiple Piece Tie Bar

**NOTE: Refresh the page to view the most current list.**

The following producers have prequalified in accordance with DMS 4515, “Multiple Piece Tie Bars for Concrete Pavement.”

Multiple piece tie bars are couplers used only in longitudinal construction joints and repair areas of concrete paving. All other (non-paving) use of couplers shall be performed with couplers on the Material Producers List for Mechanical Couplers. Multiple piece tie bars approved for use in TxDOT paving applications are for No. 5 and No. 6 bar sizes only.

Project samples must be assembled and submitted for testing in accordance with Test Method Tex-711-I, Sampling Multiple Piece Tie Bars.” Submit the samples to the Texas Department of Transportation, Construction Division, Materials and Pavements Section, 9500 North Lake Creek Parkway (CP51), Austin, Texas 78717.

**For more information, contact the Construction Division’s Rigid Pavements and Concrete Materials Branch at (512) 506-5858.**
