SUBJECT: Value of Time and Road User Costs

Road user costs are the values used in A + B bidding, incentives, road user's cost liquidated damages and lane rental.

Each year we adjust the value of time used in calculations for determining road user costs. The adjustment is based on the annual Consumer Price Index for the previous year. The value of time to be used in the calculations this year is \$21.42 per passenger car hour and \$31.28 truck hour.

If you have any questions concerning the calculation for the value of time, please contact Roxana Garcia-Zinsmeyer at 512/416-2482
