Public Need for Private Property

- US Constitution (First Amendment) protects individual rights to own property.
- Fifth Amendment to the Constitution establishes the Laws of Eminent Domain.
- Eminent Domain Law applies only to projects with a demonstrated public need.
- Advanced planning identifies a need and through public involvement and local coordination, compelling support for the project is established.

Uniform Relocation Assistance and Real Property Acquisition Act of 1970

1. Law passed in 1970 that was designed to ensure that anyone who owned property needed for a public purpose would be treated fairly.
2. The law establishes guidelines for the acquisition of property and the relocation of displaced individuals and businesses.

Acquisition of Property

- Property owner must be notified in writing of the need for his/her property.
- An independent appraiser is hired to do a detailed appraisal of the property.
- Appraiser must have experience in appraising properties similar to the subject property.
- Property owner must be given the opportunity to accompany the appraiser when the property is inspected.
- Appraisal report must be reviewed by another appraiser who will certify that uniform standards of appraisal practice were used in determining value.

Acquisition of Property

- A written offer to the property owner is made based on the value determined in the appraisal.
- Property owner is given a minimum of 30 days to consider the offer.
- If the offer is acceptable, a closing at a title company is arranged.
- If the property owner considers the offer unacceptable, the options available to the landowner under the laws of eminent domain will be explained.

- At the time of the offer of purchase or shortly thereafter, a Relocation Assistance Agent will meet with the property owner to explain the benefits of the program.
- This program is designed to ensure that a displaced residential occupant is properly relocated with no undue financial hardship and minimum inconvenience.
- Business displacees are entitled to reimbursement of cost to move personal property and inventories.
- Some reestablishment expenses are eligible for reimbursement under this program.

Right of Way Acquisition Process

- **Displacements and Relocations**

- 29 Business/Commercial, 128 Residence, & 104 Multi-Family Unit relocations required.
- 324 Parcels are anticipated to be acquired.

- **Project Timing**

- Anticipate beginning of right of way acquisition in 2010.

Equal Treatment Policy

It is the policy of the Texas Department of Transportation that individuals impacted by transportation systems expansion shall not be denied benefits excluded from participation or otherwise be subjected to discrimination based on the grounds of race, color, sex, age, handicaps, or national origin.
