FOR IMMEDIATE RELEASE

April 28, 2009

## **SH 114/121 environmentally cleared by FHWA**

The Fort Worth District office of the Texas Department of Transportation (TxDOT) announces that the Federal Highway Administration has issued a finding of no significant impact on the environmental assessment for proposed construction on SH 114/121 as part of the DFW Connector.

This finding completes the environmental and public involvement requirements for this project and allows TxDOT to continue with the development of this highway that will help accommodate current and expected growth in the area.

The 14.4-mile project will reconstruct and expand SH 114 from Business 114 (Northwest Highway) to International Parkway and SH 121 from SH 360 to FM 2499. It will include the major interchanges of Interstate 635, Farm-to-Market Road 2499 and SH 360.
