## **PUBLIC MEETING SUMMARY**

Fort Bend County, in conjunction with the Texas Department of Transportation (TxDOT), Houston District, conducted a public meeting concerning the proposed FM 1093 roadway widening project from FM 1463 to SH 99, on October 27, 2011 at Seven Lakes High School located at 9251 South Fry Road, Katy, Texas 77494. The purpose of the meeting was to gather public input on the proposed widening of FM 1093/Westpark Tollway.

The existing FM 1093 roadway is a two-lane undivided facility. The proposed roadway improvement project would extend the existing Westpark Tollway (four-lane controlled access tollway with continuous non-toll frontage roads) from its current terminus at SH 99 through the FM 723 intersection. The toll lanes would terminate and tie into the non-toll frontage roads west of the FM 723 intersection. The four-lane divided facility would continue west through the intersection of Westheimer Lakes North Drive. West of Westheimer Lakes North Drive, the four-lane divided roadway would taper into the existing two-lane undivided facility immediately east of the FM 1463/FM 359 intersection. A five-foot sidewalk is proposed on the north side of the proposed project. Additional right-of-way (ROW) would be required for the proposed project. The additional ROW would be obtained from private property along the north side and a portion of METRO ROW along the south side. One commercial displacement is required as part of the proposed project. Katy-Gaston Road and Spring Green Boulevard/FM 723, within the proposed project limits, would become grade-separated interchanges. The proposed project length is approximately 4.2 miles and the proposed project construction is anticipated in 2013.

The Notice of Public Meeting was published on September 22 and October 13, 2011 in the *Houston Chronicle* community newspapers for zip codes 77494 and 77406; September 25 and October 16, 2011 in the *LaVoz* Spanish newspaper; and on September 27 and October 17, 2011 in the *Houston Chronicle*. The notice and the affidavits of publication are attached.

The public meeting was held, from approximately 6:00 p.m. to 8:00 p.m. in an open house format. Two registration tables were located at the entrance of Seven Lakes High School Cafeteria/Commons area where attendees were invited to sign-in. Each person was provided with a pre-addressed comment form to share their thoughts regarding the proposed project, and a program, which contained a brief description and purpose of the proposed project. Handouts provided at the public meeting were available in English and Spanish. The sign-in forms and programs are attached.

Citizens were given an opportunity to view the various exhibits that were on display (see attached photos). Exhibits included a welcome board, the project location, the need and purpose, the project description, typical sections, the schematic layout for the preferred alternative, and an environmental constraints map. Additionally, project management staff was available at each station to provide information and answer questions from citizens regarding the proposed project.

### **Public Comments**

The public was encouraged to ask questions and make comments. All verbal questions and comments were immediately responded to at the meeting. Sixteen public meeting comment

forms were submitted at the public meeting and 11 comment forms were submitted via regular mail or email by the deadline of November 10, 2011. Input gathered from meeting attendees will be evaluated and used in the final adjustments of the preferred alternative. The written questions/comments received and responses are attached and summarized as follows:

*Comment 1:* I would like to see a connector lane (at grade) from south bound SH 99 to west bound frontage. This should be mandatory on the project due to timing of construction and reduced delay time. The project is desperately needed. Bumper to bumper traffic often 5:00 pm is dangerous. Overflow traffic congests Fry Road and ramp from SH 99 to Fry Road. Accessing FM 1093 in the morning is dangerous at Gaston.

*Response 1:* It is agreed that a south bound to west bound at-grade connector is needed. It will be added to the final schematic.

*Comment 2:* For residence with entrances to subdivision there should be a light instead of having to make an unsafe u-turn. Westheimer Lakes South.

*Response 2:* A traffic signal is not feasible at the intersection of FM 1093 and Canyon Fields Drive/Cinco Road Drive (the entrance to Westheimer Lakes South) because the mainlanes of the Westpark Tollway are terminating approximately 1,500 feet to the east of this intersection. Because multiple high-speed lanes are transitioning onto the frontage road, a signalized intersection at this location would be dangerous and would create a problem similar to the existing intersection of Gaston Road at FM 1093 (which is located approximately 2,000 feet from the end of the current Westpark Tollway mainlanes). The proposed u-turn would not be inherently unsafe. It would function identically to u-turns located at diamond interchanges throughout the State and would be large enough to accommodate a tractor-trailer vehicle.

*Comment 3:* Covey Trails is a public use airport. Phase Two-Plan an overpass at FM 1093 and FM 1463/FM 359. Consider airport approach path regarding overpass rise and light poles in the path of air traffic.

*Response 3:* The airport approach path and associated clear zones will be considered when planning the future extension of the Phase 2 Westpark Tollway. Currently, there are no plans to construct anything that would conflict with the runway approach for Covey Trails.

*Comment 4:* Concerned about FM 1463 intersection and projected Phase I transition.

*Response 4:* The transition from eight-lanes to two-lanes at FM 1463 occurs over a distance of 9,000 feet (1.7 miles). This meets the American Association of State Highway and Transportation Officials (AASHTO) and TxDOT requirements for transition lengths for this type of facility.

*Comment 5:* Concerning the feeder road from Canyon Fields Drive to SH 99 (Grand Parkway), how much more congested will this be for people using it and not the tollway? There is an awful lot of traffic on this road and I don't imagine a lot of the people will take the toll road for that short of a distance.

*Response 5:* The proposed four-lanes of frontage roads would add capacity beyond the existing two-lane road. If traffic becomes congested on the frontage road, drivers would have the option to pay a toll to access the mainlanes and bypass potential congestion on the frontage roads.

*Comment 6:* Please consider noise abatement and hazards to air navigation.

*Response 6:* Noise mitigation will be considered for impacted residences. If a noise wall is considered reasonable and feasible, then noise walls would be recommended. See *Response 3* for comment concerning hazards to air navigation.

*Comment 7:* I drive FM 1093 every day. I have been driving it for over six years. There is dramatic congestion every morning going towards Houston, and every evening headed towards Fulshear. From 6:30 a.m. to 8:00 a.m., it can take 15 to 18 minutes to move from FM 723 to SH 99. In the evenings, traffic is backed up east of SH 99 all the way to FM 723. The congestion causes drivers to do stupid things, like driving on shoulders or merge gores. I see people trying to cross this traffic from the side streets in desperate, fast, and dangerous manners. I see bad driving caused by frustration almost every day.

*Response 7:* Comment noted.

*Comment 8:* I was pleased to have my questions answered.

*Response 8:* Comment noted.

*Comment 9:* Congestion at FM 1093 is really bad during peak hours and with additional developments it is getting worse by the day. This project will be really useful to relieve congestion and also improve safety through this corridor.

*Response 9:* Comment noted.

*Comment 10:* This project is needed today as the traffic in this area is rapidly growing. Extension of frontage roads and tollway is already behind the development in this area of Fort Bend County. Please expedite the environmental process as well as design and construction of this project.

*Response 10:* Comment noted.

*Comment 11:* It is very dangerous as is! The sooner the better. It is going to be a year or two, please consider temporary improvements. Do the frontage roads now.

*Response 11:* Temporary improvements will be considered. The frontage roads are part of the proposed FM 1093 improvement project. As such, the environmental process and the ROW acquisition have to be completed before construction can begin.

*Comment 12:* We are ready. Start tomorrow!

*Response 12:* Comment noted.

*Comment 13:* Forthcoming in a letter.

*Response 13:* Comment noted.

*Comment 14:* I would like this constructed as soon as possible. Due to increase in traffic and development in this area.

*Response 14:* Comment noted.

*Comment 15:* It is what it is!

*Response 15:* Comment noted.

*Comment 16:* Ready to get this started.

*Response 16:* Comment noted.

*Comment 17:* I attended the meeting held on October 27 to get information on how the proposed project will affect the two subdivisions. After seeing the proposed plans, I have serious concern about how the project will affect the Westheimer Lakes and Westheimer Lakes North subdivisions, especially the access to and from the subdivisions. The Westheimer Lakes intersection is a major four-way intersection and should be either a ground level lighted intersection or further improve the tollway west with an elevated overpass and do it now as part of phase one construction.

*Response 17:* A traffic signal is not feasible at the intersection of FM 1093 and Westheimer Lakes North Drive (the entrance to Westheimer Lakes North subdivision) because the mainlanes of the Westpark Tollway are terminating approximately three-quarters of a mile (approximately 3,800 feet) to the east of this intersection. Because multiple high-speed lanes are transitioning onto the frontage road, a signalized intersection at this location would be dangerous and would create a problem similar to the existing intersection of Gaston Road at FM 1093 (which is located approximately 2,000 feet from the end of the current Westpark Tollway mainlanes). Improvements on FM 1093 from James Lanes (west of Fulshear) to FM 1463 are currently part of future plans.

*Comment 18:* I attended the meeting held on October 27 to get information on how the proposed project will affect the two subdivisions that the company I work for has developed. After seeing the proposed plans, I have serious concern about how the project will affect the Westheimer Lakes and Westheimer Lakes North subdivisions, especially the access to and from the subdivisions and we request a meeting with you to allow us to explain our concerns.

*Response 18:* See Response 17. The public meeting summary report will be available for review at the TxDOT Houston District office, located at 7600 Washington Avenue, Houston, Texas 77007 and the Fort Bend County Engineering office, located at 1124-52 Blume Road, Rosenberg, TX 77471.

*Comment 19:* I am writing in support of the initial phase of the proposed expansion of the Westpark Tollway from SH 99 (Grand Parkway) to FM 723 (Spring Green Road), including improvements of FM 1093 west to FM 1463. These thoroughfare development projects are consistent with the major thoroughfare plan for the region and are critical to ensure safe and efficient mobility for the area as residential development continues to grow at a very fast pace. The Westpark Tollway is a key mobility component in transporting daily from this area thousands of existing and new residents into the City of Houston. TxDOT is encouraged to complete, as soon as possible, future phases of the Tollway expansion to the west to support tremendous residential growth in this area.

Research recently undertaken by a nationally respected demographic firm indicates that this area to the west of Highway 99, much of which is within the boundaries of the Katy Independent School District (ISD), is one of the fastest growing suburban areas in the country. A report presented by the District's demographic consultant to our Board of Trustees on October 24, 2011, projects approximately 12,000 new housing units in the southwest sector of our District over the next ten years, with approximately 8,700 of these being constructed within the next five years. These thoroughfares are necessary for the daily transport of students by way of school bus or personal vehicle. It is also extremely important that the major north/south collector thoroughfare of FM 1463 be developed now to support safe and efficient connection to the proposed Westpark Tollway expansion. Large master planned communities situated adjacent to FM 1463 are currently completing road connections into FM 1463 resulting in a tremendous volume of additional traffic on this road. Improvements to expand FM 1463 to ensure at least four lanes of safe, controlled thoroughfare from FM 1093 to I-10, as well as the elimination of 90 degree uncontrolled turns is critical to support the residential development in this area and to ensure both the safe mobility of our students, staff, and community, as well as the efficient connection to the proposed Westpark Tollway expansion. Only through the development of FM 1463 will the development of the Westpark Tollway prove entirely successful. We anxiously await these important road projects.

*Response 19:* Comment noted.

*Comment 20:* This project is greatly needed. It should be built as soon as possible. Anything that can be done to accelerate the schedule should be done. The traffic problems along FM 1093 extend past Fulshear. Every effort should be made to extend the construction limits west either to Fulshear, or preferably, beyond.

*Response 20:* Comment Noted. Improvements on FM 1093 from James Lanes (west of Fulshear) to FM 1463 are currently part of future plans.

*Comment 21:* This area of FM 1093 has heavy bicycle use in the evenings and on the weekend. Consideration to bicycle use should be given during construction to accommodate cyclists. Conventional construction traffic control largely ignores cyclists. Shoulders should be retained during construction for cyclist use in this area of high volume bicycle use.

The project design should include bicycle lanes on the frontage roads and carry the lanes through the intersections. This area sees some of the highest cyclists' usage in the Houston

Metropolitan Area, with hundreds of cyclists riding on the roadway every weekend, and regular bicycle events with thousands of users.

To summarize:

- Wide shared lanes will not be adequate for the numbers of cyclists on these roadways.
- In rural areas, bicycle lanes should be provided on the frontage roads if full (8 feet to 10 feet) shoulders are not provided.
- In developed areas with curb and gutter on frontage roads, wide bicycle lanes should be provided.
- Areas with turn lanes at intersections should carry the bicycle lanes through the intersections. If bicyclists' area accommodated on the shoulder, bicycle lanes should be provided through the turn lanes areas.

*Response 21:* Wide shared-use bicycle lanes are required by TxDOT and the Federal Highway Administration (FHWA) in lieu of a dedicated bicycle lane and would be provided for on this project. Temporary bicycle lanes would not be provided during construction due to safety concerns and cost.

*Comment 22:* We need a bike lane because on weekends there are usually 20 or more bikers riding on FM 1093.

*Response 22:* See Response 21.

*Comment 23:* I am concerned about the congestion that will be created at the intersection of FM 1093 and FM 1463. There have been several bad accidents at that intersection already. Please make some safety improvements at this intersection. FM 1093 needs a bike lane.

*Response 23:* Congestion at FM 1093 and FM 1463 will be addressed by a separate project, but it will not be ignored. See Response 21.

*Comment 24:* Are they going to have bicycle lanes? FM 1093 and FM 1463 are packed on the weekend with cyclists. FM 1093 and FM 1463 are already a dangerous intersection. The intersection of Flewellen Way and FM 1093 has seen many, many accidents. This could affect future sales in the Cross Creek Ranch, Fulbrook, and Weston Lakes Communities. How is the bus barn, with an additional 400 bus trips a day, going to affect the traffic and safety?

*Response 24:* See Response 23. Flewellen Way is not a part of this proposed project, but will be addressed in a separate project. The bus barn traffic is accounted for in the future traffic projections. Since the bus barn traffic is accounted for in future traffic projections and since improvements to FM 1093 from James Lane to FM 1463 are proposed in the future, it is not anticipated that sales would be affected by the bus barn traffic.

*Comment 25:* FM 1093 should have a bike lane. I would like to see the Westpark Tollway use more of the land on the south side of the road. Traffic light situation at FM 1093 and FM 1463 is horrible. The congestion needs to be addressed.

*Response 25:* See Response 23. Currently, the proposed project would utilize 50-feet of the 100-foot METRO ROW to the south of FM 1093. METRO is retaining the remaining ROW and the right to operate a rail transit system in their corridor, adjacent to and immediately south of the proposed FM 1093/Westpark Tollway expansion; therefore, additional land to the south is not available for the proposed project.

*Comment 26:* Thank you for the opportunity to provide feedback in response to the proposed extension of the Westpark Tollway and FM 1093.

Katy ISD continues to experience unprecedented growth in residential housing in the southwest sector of our school district, including that area bordered by the Westpark Tollway and FM 1093. As a result, traffic mobility in this area is a particular concern of ours. Two distinct areas of concern are as follows:

1. Because Katy ISD buses travel the Westpark Tollway access roads and FM 1093 daily in transporting school children to and from our schools, it is important that both the Tollway access roads and FM 1093 have sufficient lanes to safely accommodate buses and passenger vehicles. Toward that end, we would respectfully suggest that the Tollway access roads and FM 1093 include four lanes-two in each direction.
2. There appear to be no immediate plans to improve FM 1463, a major north/south artery comprised of a single lane in each direction, between FM 1093 and Interstate 10. Since much of the traffic on FM 1463 will likely be connecting with the Westpark Tollway and FM 1093, any efforts to enhance the Tollway and FM 1093 will also create greater traffic volume on FM 1463. Travel on FM 1463 will also increase substantially in the next few years with the development of communities in the southwest sector of the school district. In addition, the recent connection to FM 1463 of major west/east thoroughfares such as Cinco Ranch Boulevard and Fry Road is expected to bring greater traffic to FM 1463. As you would imagine, many of our buses travel FM 1463 daily and that number is expected to increase even more as the area grows. To more safely accommodate buses and passenger vehicles, we would respectfully urge that serious consideration be given to the widening of FM 1463 in conjunction with the planned Tollway and FM 1093 expansion.

Again, thank you for the opportunity to provide feedback.

*Response 26:* The proposed project would provide two free frontage road lanes in each direction. FM 1463 does merit consideration for future widening, but is not within the scope of this proposed project.

*Comment 27:* On behalf of the Board of Governors for the Katy Area Economic Development Council, I am writing in support of the initial phase of the proposed expansion of the Westpark Tollway from State Highway 99 (Grand Parkway) to FM 723 (Spring Green Road), including improvements of FM 1093 west to FM 1463. These thoroughfare development projects are consistent with the major thoroughfare plan for the region and are critical to ensure safe and efficient mobility for the area as residential development continues to grow at a very fast pace. The Westpark Tollway is a key mobility component in transporting daily from this area thousands of existing and new residents into the City of Houston. TxDOT is

encouraged to complete, as soon as possible, future phases of the Tollway expansion to the west to support tremendous residential growth and commercial development in this area.

Research recently undertaken by a nationally respected demographic firm indicates that this area to the west of Highway 99, much of which is within the boundaries of the Katy Area Economic Development Council (EDC), is one of the fastest growing suburban areas in the country. We anxiously await these important road projects. Thank you for your attention and consideration.

*Response 27:* Comment noted.

*Comment 28:* I would like an e-mail copy/scan of the meeting minutes, pictures/drawings, or a link to a video of the meeting if it is available. I was unable to attend and am interested in the outcome of this meeting. Thank you very much.

*Response 28:* TxDOT personnel contacted the commenter to let them know that the public meeting summary report will be available for review at the TxDOT Houston District office, located at 7600 Washington Avenue, Houston, Texas 77007 and the Fort Bend County Engineering office, located at 1124-52 Blume Road, Rosenberg, TX 77471.

**APPENDIX A**  
**NOTICE OF PUBLIC MEETING**

## **NOTICE OF PUBLIC MEETING**

Fort Bend County and the Texas Department of Transportation (TxDOT) will conduct a public meeting regarding the proposed improvements to FM 1093 from SH 99 to FM 1463 in Fort Bend County. The meeting will be held on October 27, 2011 at Seven Lakes High School, which is located at 9251 South Fry Road, Katy, Texas 77494. The meeting will be held in an open house format from 6:00 p.m. to 8:00 p.m.

The purpose of the meeting is to gather public input on the proposed widening of FM 1093 from SH 99 to FM 1463. FM 1093 within the project limits is currently a two-lane undivided rural roadway. The proposed project would consist of a four-lane divided tollway with non-tolled, two-lane continuous frontage roads.

Exhibits showing aerial photography and schematic plans of the proposed project corridor will be presented at the meeting. Representatives from Fort Bend County, TxDOT and their study team will be available to answer individual questions. Public comments are encouraged. The schematic plan showing the proposed alternatives is on file and available for inspection at the Fort Bend County Offices at 1124-52 Blume Road, Rosenberg, Texas 77471 and the TxDOT Houston District Office at 7600 Washington Avenue, Houston, Texas 77007. TxDOT and County offices are open Monday through Friday, from 8:00 a.m. to 5:00 p.m., excluding state holidays.

Additional right-of-way would be required for the proposed project and some displacements would be necessary. Personnel from the TxDOT Right-of-Way Section will be available to discuss TxDOT's Relocation Assistance Program that provides benefits and services for those that may be displaced. Information about the tentative right-of-way acquisition schedule can be obtained from the District office.

Persons interested in attending the public meeting who have special communication or accommodation needs are encouraged to contact TxDOT's Public Information Office at 713-802-5072 at least two working days prior to the meeting. Since the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two working days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the Director of Project Development, Texas Department of Transportation, P.O. Box 1386, Houston, Texas 77251-1386, at any time on or before November 10, 2011. Comments may also be emailed on or before November 10, 2011 to [HOU-PIOWebMail@txdot.gov](mailto:HOU-PIOWebMail@txdot.gov).

## **AVISO DE REUNIÓN PÚBLICA**

El condado de Fort Bend y El Departamento de Transporte de Texas (TxDOT) conducirán una reunión pública con respecto a las mejoras propuestas al FM 1093 desde SH 99 hasta FM 1463 en el condado de Fort Bend. La reunión se llevará a cabo el 27 de octubre de 2011, en Seven Lakes High School, ubicada en 9251 South Fry Road, Katy, Texas 77494. El formato de la reunión será de foro abierta entre las horas de 6:00 p.m. a 8:00 p.m.

El propósito de esta reunión es para presentar el diseño y solicitar comentarios del público con respecto a la ampliación propuesto de la carretera FM 1093 desde SH 99 hasta FM 1463. La carretera existente dentro de los límites consiste de dos carriles no dividido. El proyecto propuesto consistiría de una autopista de cuota de cuatro carriles divididos y dos carriles de acceso sin pago de cuota.

En la reunión pública se pondrán en exhibición los mapas y el plan esquemático que muestren el diseño del proyecto propuesto. Los representantes del condado de Fort Bend, TxDOT y de su equipo de estudio estarán disponibles para contestar preguntas individuales. Se animan los comentarios públicos. El plan esquemático que demuestra los alternativas propuestos está archivada y disponible para la inspección publica en las oficinas del condado de Fort Bend ubicada en 1124-52 Blume Road, Rosenberg, Texas 77471 y en la oficina de TxDOT Houston District Office ubicada en 7600 Washington Avenue, Houston, Texas 77007. Las oficinas se encuentran abiertas de lunes a viernes, de 8:00 a.m. a 5:00 p.m., excluyendo los días festivos.

El derecho de vía adicional será requerido para el proyecto propuesto y algunas dislocaciones serán necesarias. El personal del derecho de vía de TxDOT estará disponible para discutir el programa de la ayuda de la relocalización que proporciona ventajas y los servicios para los que puedan ser desplazadas. La información sobre el horario tentativo de la adquisición del derecho de vía se puede obtener en la oficina de TxDOT Houston District Office.

Las personas interesadas en asistir a la reunión que tengan necesidades especiales de comunicación o de comodidad deben ponerse en contacto con la Oficina de Información Pública de TxDOT al 713-802-5072 con una anticipación no menor a dos días hábiles. La reunión será conducida en inglés. Las solicitudes para intérpretes de idiomas o otras necesidades especiales de comunicación también deben realizarse con no menos de dos días hábiles de anticipación. TxDOT hará cada esfuerzo razonable de acomodar estas necesidades.

Todos interesados son invitados a asistir esta reunión pública. Los comentarios escritos con respeto al proyecto propuesto se pueden presentar en la reunión o someter al: Director of Project Development, Texas Department of Transportation, P.O. Box 1386, Houston, Texas 77251-1386 o por correo electrónico a [HOU-PIOWebMail@txdot.gov](mailto:HOU-PIOWebMail@txdot.gov). Todos los comentarios enviados se deben matasellar antes del 10 de noviembre de 2011.

**APPENDIX B**  
**ADVERTISEMENTS/AFFIDAVITS**

**NOTICE OF  
PUBLIC MEETING**

Fort Bend County and the Texas Department of Transportation (TxDOT) will conduct a public meeting regarding the proposed improvements to FM 1093 from SH 99 to FM 1463 in Fort Bend County. The meeting will be held on October 27, 2011 at Seven Lakes High School, which is located at 9251 South Fry Road, Katy, Texas 77494. The meeting will be held in an open house format from 6:00 p.m. to 8:00 p.m.

The purpose of the meeting is to gather public input on the proposed widening of FM 1093 from SH 99 to FM 1463. FM 1093 within the project limits is currently a two-lane undivided rural roadway. The proposed project would consist of a four-lane divided tollway with non-tolled, two-lane continuous frontage roads.

Exhibits showing aerial photography and schematic plans of the proposed project corridor will be presented at the meeting. Representatives from Fort Bend County, TxDOT and their study team will be available to answer individual questions. Public comments are encouraged. The schematic plan showing the proposed alternatives is on file and available for inspection at the Fort Bend County Offices at 500 Liberty Street, Suite 101, Richmond, Texas 77469 and the TxDOT Houston District Office at 7600 Washington Avenue, Houston, Texas 77007. TxDOT and County offices are open Monday through Friday, from 8:00 a.m. to 5:00 p.m., excluding state holidays.

Additional right-of-way would be required for the proposed project and some displacements would be necessary. Personnel from the TxDOT Right-of-Way Section will be available to discuss TxDOT's Relocation Assistance Program that provides benefits and services for those that may be displaced. Information about the tentative right-of-way acquisition schedule can be obtained from the District office.

Persons interested in attending the public meeting who have special communication or accommodation needs are encouraged to contact TxDOT's Public Information Office at 713-802-5072 at least two working days prior to the meeting. Since the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two working days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the Director of Project Development, Texas Department of Transportation, P.O. Box 1386, Houston, Texas 77251-1386, at any time on or before November 10, 2011. Comments may also

BOX 1386, HOUSTON, TEXAS

**BIDS & PROPOSALS**

**BIDS & PROPOSALS**

**INVITATION TO BIDDERS**

Sealed bids addressed to the **Friendswood Development Company on behalf of Porter Municipal Utility District** will be received at the office of Brown & Gay Engineers, Inc.; 10777 Westheimer, Suite 400; Houston, Texas, 77042 (phone 281-558-8700) until **11:00 AM Tuesday, October 11, 2011**, at which time all bids will be opened and publicly read for the furnishing of all material, equipment, labor and supervision necessary or incidental for the **Construction of Auburn Trails Lift Station**.  
Scope of Project:  
1. Construction of Auburn Trails Lift Station No. 1, reinforced concrete wet well and valve vault, wet well lining excavation and disposal, submersible pumps, hatches, paving, force main, sanitary sewer, drainage, access road, fencing, site grading, dewatering, ground-water control system, piping, fittings, valves, coatings, sodding, trench safety system, electrical, controls and appurtenances.  
2. Furnish and install a 60 kW Diesel Powered Emergency Generator with sub base fuel tank, sound attenuating enclosure, automatic transfer switch (ATS), and necessary electrical and all appurtenances for a complete emergency electrical power system for the lift station facilities. Work shall include, but not limited to, concrete foundation, paving, grading and concrete foundation for electrical provider provided transformer.  
A mandatory pre-bid conference will be held on **Tuesday, October 4, 2011 at 11:00 AM** at the office of Brown and Gay Engineers, Inc.  
Plans, specifications and bid documents are available online at [www.civcastusa.com](http://www.civcastusa.com).

**INVITATION TO BIDDERS**

Saaled BIDS, in duplicate, addressed to North Fort Bend Water Authority, Attention Mr. Peter Houghton, President, North Fort Bend Water Authority will be received at the office of Brown & Gay Engineers, Inc. 10777 Westheimer Road, Suite 400, Houston, Texas 77042, until 2:00 p.m. Local Time October 18, 2011, and then publicly opened and read for "Construction of Connection to MUD 118 for North Fort Bend Water Authority, Fort Bend County, Texas." BIDS received after the closing time will be returned unopened.  
Scope of Work of the contract includes construction of approximately 3,500 lf of 16" diameter water transmission line improvements including necessary valves, fittings, service manholes and other related appurtenances. The construction of the water transmission lines will use a combination of open cut, tunnel and auger technologies. Also included in this project are limited water plant connections, cathodic protection, tree protection, pavement removal and replacement, regrading and sodding/seedling of ditches.  
All bidders are strongly encouraged to attend the non-mandatory pre-bid conference as described in Section 00100 INSTRUCTIONS TO BIDDERS. The pre-bid conference will be held on October 4, 2011, at 2:00 p.m. Local Time, at the office of Brown & Gay Engineers, Inc., 10777 Westheimer Road, Suite 400, Houston, Texas 77042.  
Each BID shall be accompanied by a bid security in the form of a Bid Bond or Cashier's Check, in an amount not less than 5 percent of the total amount bid.  
The successful Bidder

### NOTICE OF HEARING RUFFINO HILLS TRANSFER STATION, LP SOAH Docket No. 582-11-9498 TCEQ Docket No. 2011-1071-MSW Proposed Permit No. 1355A

**APPLICATION.** Ruffino Hills Transfer Station, LP, c/o Fort Bend County Regional Landfill, 14115 Davis Estates Road, Needville, Texas 77461 has applied to the Texas Commission on Environmental Quality (TCEQ) for a permit amendment to authorize operation of a Type V municipal solid waste transfer station. The facility is located at 9720 Ruffino Road, Houston, Texas 77031 in Harris County, Texas.

The TCEQ Executive Director has prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at the Morris Frank Library, a Houston Public Library Express Location, 10103 Fondren, Brays Oaks Towers Building, Houston, Texas 77096 or online at <http://www.wcawaste.com/Default.asp?Page=43>.

**CONTESTED CASE HEARING.** The State Office of Administrative Hearings (SOAH) will conduct a formal contested case hearing at:

10:00 a.m. - October 27, 2011  
State Office of Administrative Hearings  
The Preserve at North Loop  
2020 North Loop West, Suite 111  
Houston, Texas 77018

The contested case hearing will be a legal proceeding similar to a civil trial in state district court. The hearing will address the disputed issues of fact identified in the TCEQ order concerning this application issued on August 22, 2011. In addition to these issues, the judge may consider additional issues if certain factors are met.

The hearing will be conducted in accordance with Chapter 2001, Texas Government Code; Chapter 361, Texas Health and Safety Code; TCEQ rules including 30 Texas Administrative Code (TAC) Chapter 330; and the procedural rules of the TCEQ and SOAH, including 30 TAC Chapter 80 and 1 TAC Chapter 155. The hearing will be held unless all timely hearing requests have been withdrawn or denied.

To request to be a party, you must attend the hearing and show you would be adversely affected by the application in a way not common to members of the general public. Any person may attend the hearing and request to be a party. Only persons named as parties may participate at the hearing.

**INFORMATION.** If you need more information about the hearing process for this application, please call the Public Education Program, toll free, at 1-800-687-4040. General information about the TCEQ can be found at our web site at <http://www.tceq.state.tx.us/>.

Further information may also be obtained from Ruffino Hills Transfer Station, LP at the address stated above or by calling Charles Dominguez, P.E., with Golder Associates at 281-821-6868.

Persons with disabilities who need special accommodations at the hearing should call the SOAH Docketing Department at 512-475-3445, at least one week prior to the hearing.

Issued: September 13, 2011

*Bridget C. Bohac*  
Bridget C. Bohac, Chief Clerk  
Texas Commission on Environmental Quality

### NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL PERMIT NO. WQ0011979002

**APPLICATION.** White Oak Bend Municipal Utility District, 1001 McKinney Street, Suite 1000, Houston, Texas 77002, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0011979002 (EPA I.D. No. TX0076651) to authorize the discharge of treated wastewater at a volume not to exceed a daily average flow of 400,000 gallons per day. The domestic wastewater treatment facility is located at 10200 Autumn Meadow Lane, approximately 1.25 miles south of Farm-to-Market Road 1960 and 0.35 mile east of Jones Road in Harris County, Texas 77064. The discharge route is from the plant site to a Harris County Flood Control District ditch; thence to White Oak Bayou Above Tidal. TCEQ received this application on September 6, 2011. The permit application is available for viewing and copying at Harris County Public Library - NorthWest Branch, 11355 Regency Green Drive, Cypress, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.  
<http://www.tceq.texas.gov/assets/public/hb6107/index.html?lat=29.255&lng=-95.578333&zoom=13&type=r>

**ADDITIONAL NOTICE.** TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments. PUBLIC COMMENT/PUBLIC MEETING.** You

**LEGAL NOTICE**

The Houston Planning Commission has received an application to allow the partial replatting of Weybridge Townhomes, being all or part of lots 1-12, block 1, as recorded in Volume 618, Page 127 of the Harris County Map Records for the purpose of creating one commercial reserve. The new subdivision name is Mirabell Subdivision.

The City will send out written notice of a public hearing to all owners of property within 250' of the boundary of the plat and all parcels along or across from a blockface that abuts any street or private roadway extending 500 feet from the plat as measured along the centerline of any street or private roadway that abuts the boundary of the plat.

State law allows protest when the proposed replat requires a variance or special exception. The protest must be filed in writing prior to the close of the public hearing. If owners of 20% of the land area within the original plat boundary that is within 200 feet of the replat protest the replat, approval of the replat must receive an affirmative vote of at least three-fourth (3/4) of the Houston Planning Commission Members present. In computing the percentage of land area for the purpose of protest, streets and alleys are included.

You may speak on this replat at the public hearing on August 18, 2011 at 2:30p.m. in the City Council Chamber, City Hall Annex, Public Level, 900 Bagby Street, Houston, Texas. Contact the applicant at (281) 556-6918 or the City of Houston Planning Department at (713) 837-7701 for any additional information.

**NOTICE OF PUBLIC MEETING**

Fort Bend County and the Texas Department of Transportation (TxDOT) will conduct a public meeting regarding the proposed improvements to FM 1093 from SH 99 to FM 1463 in Fort Bend County. The meeting will be held on October 27, 2011 at Seven Lakes High School, which is located at 9251 South Fry Road, Katy, Texas 77494. The meeting will be held in an open house format from 6:00 p.m. to 8:00 p.m.

The purpose of the meeting is to gather public input on the proposed widening of FM 1093 from SH 99 to FM 1463. FM 1093 within the project limits is currently a two-lane undivided rural roadway. The proposed project would consist of a four-lane divided tollway with non-tolled, two-lane continuous frontage roads.

Exhibits showing aerial photography and schematic plans of the proposed project corridor will be presented at the meeting. Representatives

**Tuesday, October 4, 2011 at 11:00 AM** at the office of Brown and Gay Engineers, Inc.

Plans, specifications and bid documents are available online at [www.civcastusa.com](http://www.civcastusa.com).

A bid bond or cashier's check in the amount of 10% of the total bid amount must accompany each bid. The successful bidder will be required to provide a performance bond and a payment bond, as provided for in the bid documents, for the full amount of the contract. The Owner reserves the right to reject any or all bids.

**NOTICE TO BIDDERS**

**CHRONICLE LEGAL NOTICES**

e-mail [legals@chron.com](mailto:legals@chron.com)

Director will prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

**PUBLIC COMMENT/PUBLIC MEETING.** You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission will only grant a contested case hearing on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised in timely filed comments that were not subsequently withdrawn. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**AGENCY CONTACTS AND INFORMATION.** All written public comments and requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at [www.tceq.state.tx.us/about/comments.html](http://www.tceq.state.tx.us/about/comments.html). If you need more information about this permit application or the permitting process, please call the Public Education Program, Toll Free, at 1-800-687-4040. Si desea informacion en Espanol, puede llamar al 1-800-687-4040. General information about TCEQ can be found at our web site at [www.tceq.state.tx.us](http://www.tceq.state.tx.us).

Further information may also be obtained from White Oak Bend Municipal Utility District at the address stated above or by calling Mr. James Hetzel, Koehn & Associates Engineers, Inc., at 713-682-2527.

Issuance Date: September 9, 2011

**EXPERT ADVICE on your classified ad, Chronicle Classifieds 713-224-6868.**

required then and there to appear and file written answer to the Plaintiff's Original Petition, filed in said Court on the 6th day of JUNE, 2011, in a suit numbered: 2011-33785 docket of said court, wherein SELECT PORTFOLIO SERVICING INC. AS SERVICING AGENT FOR PNC BANK, NATIONAL ASSOCIATION, the Plaintiff, and SANDRA MOYA AND GUADALUPE MOYA AND THE HEIRS AT LAW OF SANDRA MOYA, DECEASED, the Defendants, the nature of plaintiff's demand and the said petition alleging: FORECLOSURE

**PLAINTIFF'S SUMMARY OF SUIT FOR CITATION BY PUBLICATION**

You are hereby notified that suit has been brought by Select Portfolio Servicing, Inc., as Servicing Agent for PNC Bank, NA as Plaintiff against Sandra Moya and Guadalupe Moya and the Heirs at Law of Sandra Moya, Deceased as Defendants, and any other person claiming any right, title, interest or possession in and to the property located at 1039 Moshier Lane, Houston, Harris County, Texas and legally described as: LOT FOUR HUNDRED FORTY-NINE (449) IN BLOCK TWENTY (20) OF HIDDEN VALLEY, SECTION FOUR (4) SUBDIVISION IN HARRIS COUNTY, TEXAS, ACCORDING TO THE MAP OR PLAT THEREOF, RECORDED IN VOLUME 97, PAGE 14 OF THE MAP RECORDS OF HARRIS COUNTY, TEXAS. Plaintiff's Petition is styled Select Portfolio Servicing, Inc., as Servicing Agent for PNC Bank, NA, its successors in interest and assigns, Plaintiff v. Sandra Moya and Guadalupe Moya and the Heirs at Law of Sandra Moya, Deceased, Defendants. The Petition seeks to foreclose the lien on the property and assert superior title to the above described property.

Notice hereof shall be given by publishing this Citation once a week for four consecutive weeks previous to the day of OCTOBER 4, 2011, in some newspaper published in the County of Harris, if there be a newspaper published therein, but if not, then the nearest county where a newspaper is published, and this Citation shall be returned on the 4th of OCTOBER, 2011, which is forty two days after the date it is issued, and the first publication shall be at least twenty-eight days before said return day.

**HEREIN FAY NOT,** but have before said court on said return day this Writ with your return thereon, showing how you have executed same.

**WITNESS: Chris Daniel,** District Clerk, Harris County Texas

**GIVEN UNDER MY HAND AND SEAL OF SAID COURT** at Houston, Texas this 23RD day of AUGUST, 2011.

ous frontage roads.

Exhibits showing aerial photography and schematic plans of the proposed project corridor will be presented at the meeting. Representatives from Fort Bend County, TxDOT, and their study team will be available to answer individual questions. Public comments are encouraged. The schematic plan showing the proposed alternatives is on file and available for inspection at the Fort Bend County Offices at 500 Liberty Street, Suite 101, Richmond, Texas 77469 and the TxDOT Houston District Office at 7600 Washington Avenue, Houston, Texas 77007. TxDOT and County offices are open Monday through Friday, from 8:00 a.m. to 5:00 p.m., excluding state holidays.

Additional right-of-way would be required for the proposed project and some displacements would be necessary. Personnel from the TxDOT Right-of-Way Section will be available to discuss TxDOT's Relocation Assistance Program that provides benefits and services for those that may be displaced. Information about the tentative right-of-way acquisition schedule can be obtained from the District office.

Persons interested in attending the public meeting who have special communication or accommodation needs are encouraged to contact TxDOT's Public Information Office at 713-802-5072 at least two working days prior to the meeting. Since the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two working days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the Director of Project Development, Texas Department of Transportation, P.O. Box 1386, Houston, Texas 77251-1386, at any time on or before November 10, 2011. Comments may also be emailed on or before November 10, 2011 to [HOUPIOWebMail@TxDOT.gov](mailto:HOUPIOWebMail@TxDOT.gov).

**School Crossing Guard Funding**

The City of Houston is once again accepting applications for reimbursement of actual school crossing guard services for the 2011-2012 school year. The funds will be distributed on the basis of the number of school crossings using paid school crossing guards, for each school district or school, in relation to the total number of school crossings using paid school crossing guards in the City of Houston. In the event the monies available in the fund are insufficient to cover the costs of school crossing guards at both elementary and secondary schools for all qualified applicants, then funding will be first applied to cover the cost of elementary school crossing guards. Interested schools should request an application in writing addressed to Dorcas A. Spencer, at the Houston Police Department, Office of Budget and Finance, 1200 Travis Street Houston, Texas 77002. Office: 713-308-1753. Email: [dorcas.spencer@cityofhouston.net](mailto:dorcas.spencer@cityofhouston.net). All applications are due by Friday, September 30, 2011.

**AVISO DE REUNION  
PUBLICA**

El condado de Fort Bend y el Departamento de Transporte de Texas (TxDOT) conducirán una reunión pública con respecto a las mejoras propuestas al FM 1093 desde SH 99 hasta FM 1463 en el condado de Fort Bend. La reunión se llevará a cabo el 27 de octubre de 2011, en Seven Lakes High School, ubicada en 9251 South Fry Road, Katy, Texas 77494. El formato de la reunión será de foro abierta entre las horas de 6:00 p.m. a 8:00 p.m.

El propósito de esta reunión es para presentar el diseño y solicitar comentarios del público con respecto a la ampliación propuesta de la carretera FM 1093 desde SH 99 hasta FM 1463. La carretera existente dentro de los límites consiste de dos carriles no dividido. El proyecto propuesto consistiría de una autopista de cuota de cuatro carriles divididos y dos carriles de acceso sin pago de cuota.

En la reunión pública se pondrán en exhibición los mapas y el plan esquemático que muestren el diseño del proyecto propuesto. Los representantes del condado de Fort Bend, TxDOT y de su equipo de estudio estarán disponibles para contestar preguntas individuales. Se animan los comentarios públicos. El plan esquemático que demuestra los alternativas propuestas está archivada y disponible para la inspección pública en las oficinas del condado de Fort Bend ubicada en 500 Liberty Street, Suite 101, Richmond, Texas 77469 y en la oficina de TxDOT Houston District Office ubicada en 7600 Washington Avenue, Houston, Texas 77007. Las oficinas se encuentran abiertas de lunes a viernes, de 8:00 a.m. a 5:00 p.m., excluyendo los días festivos. El derecho de vía adicional será requerido para el proyecto propuesto y algunas dislocaciones serán necesarias. El personal del derecho de vía de TxDOT estará disponible para discutir el programa de la ayuda de la relocalización que proporciona ventajas y los servicios para los que puedan ser desplazadas. La información sobre el horario tentativo de la adquisición del derecho de vía se puede obtener en la oficina de TxDOT Houston District Office.

Las personas interesadas en asistir a la reunión que tengan necesidades especiales de comunicación o de comodidad deben ponerse en contacto con la Oficina de Información Pública de TxDOT al 713-802-5072 con una anticipación no menor a dos días hábiles. La reunión será conducida en inglés. Las solicitudes para intérpretes de idiomas o otras necesidades especiales de comunicación también deben realizarse con no menos de dos días hábiles de anticipación. TxDOT hará cada esfuerzo razonable de acomodar estas necesidades.

Todos interesados son invitados a asistir esta reunión pública. Los comentarios escritos con respecto al proyecto pro-

vidados a asistir esta re-  
unión pública. Los co-  
mentarios escritos con  
respeto al proyecto pro-  
puesto se pueden presen-  
tar en la reunión o som-  
eter al: Director of Project  
Development, Texas De-  
partment of Transporta-  
tion, P.O. Box 1386, Hous-  
ton, Texas 77251-1386 o  
por correo electrónico a  
HOUPIOWebMail@TXDOT.  
gov. Todos los comen-  
tarios enviados se deben  
matasellar antes del 10  
de noviembre de 2011.

**NOTICE OF  
PUBLIC MEETING**

Fort Bend County and the Texas Department of Transportation (TxDOT) will conduct a public meeting regarding the proposed improvements to FM 1093 from SH 99 to FM 1463 in Fort Bend County. The meeting will be held on October 27, 2011 at Seven Lakes High School, which is located at 9251 South Fry Road, Katy, Texas 77494. The meeting will be held in an open house format from 6:00 p.m. to 8:00 p.m.

The purpose of the meeting is to gather public input on the proposed widening of FM 1093 from SH 99 to FM 1463. FM 1093 within the project limits is currently a two-lane undivided rural roadway. The proposed project would consist of a four-lane divided tollway with non-tolled, two-lane continuous frontage roads.

Exhibits showing aerial photography and schematic plans of the proposed project corridor will be presented at the meeting. Representatives from Fort Bend County, TxDOT and their study team will be available to answer individual questions. Public comments are encouraged. The schematic plan showing the proposed alternatives is on file and available for inspection at the Fort Bend County Offices at 1124-52 Blume Road, Rosenberg, Texas 77471 and the TxDOT Houston District Office at 7600 Washington Avenue, Houston, Texas 77007. TxDOT and County offices are open Monday through Friday, from 8:00 a.m. to 5:00 p.m., excluding state holidays.

Additional right-of-way would be required for the proposed project and some displacements would be necessary. Personnel from the TxDOT Right-of-Way Section will be available to discuss TxDOT's Relocation Assistance Program that provides benefits and services for those that may be displaced. Information about the tentative right-of-way acquisition schedule can be obtained from the District office.

Persons interested in attending the public meeting who have special communication or accommodation needs are encouraged to contact TxDOT's Public Information Office at 713-802-5072 at least two working days prior to the meeting. Since the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two working days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the Director of Project Development, Texas Department of Transportation, P.O. Box 1386, Houston, Texas 77251-1386, at any time on or before November 10, 2011. Comments may also

**FM 1093/WESTPARK TOLLWAY  
ROADWAY IMPROVEMENT PROJECT  
PUBLIC MEETING  
6:00 p.m. to 8:00 p.m.**

**MEETING NOTES**

This meeting will be in an *Open House* format beginning at 6:00 p.m. and ending at 8:00 p.m. All attendees are asked to sign-in at the Sign-In table located at the entrance to the meeting.

Project Description

Fort Bend County, in conjunction with the Texas Department of Transportation (TxDOT) Houston District, proposes to widen FM 1093 from FM 1463 to SH 99 in Fort Bend County, Texas. The proposed roadway improvement project would extend the existing Westpark Tollway (four-lane controlled access tollway with continuous non-toll frontage roads) from its current terminus at SH 99 through the FM 723 intersection. The toll lanes would terminate and tie into the non-toll frontage roads west of the FM 723 intersection. The four-lane divided facility would continue west through the intersection of Westheimer Lakes North Drive. West of Westheimer Lakes North Drive, the four-lane divided roadway would taper into the existing two-lane facility immediately east of the FM 1463/FM 359 intersection. Katy-Gaston Road and Spring Green Boulevard/FM 723, within the proposed project limits, would become grade-separated interchanges. Additional right-of-way would be required for the proposed project. The additional right-of-way would be obtained from private property and a portion of METRO right-of-way. Minimal displacements and relocations would be required as part of the proposed project. The proposed project length is approximately 4.2 miles and the proposed project construction is anticipated in 2013.

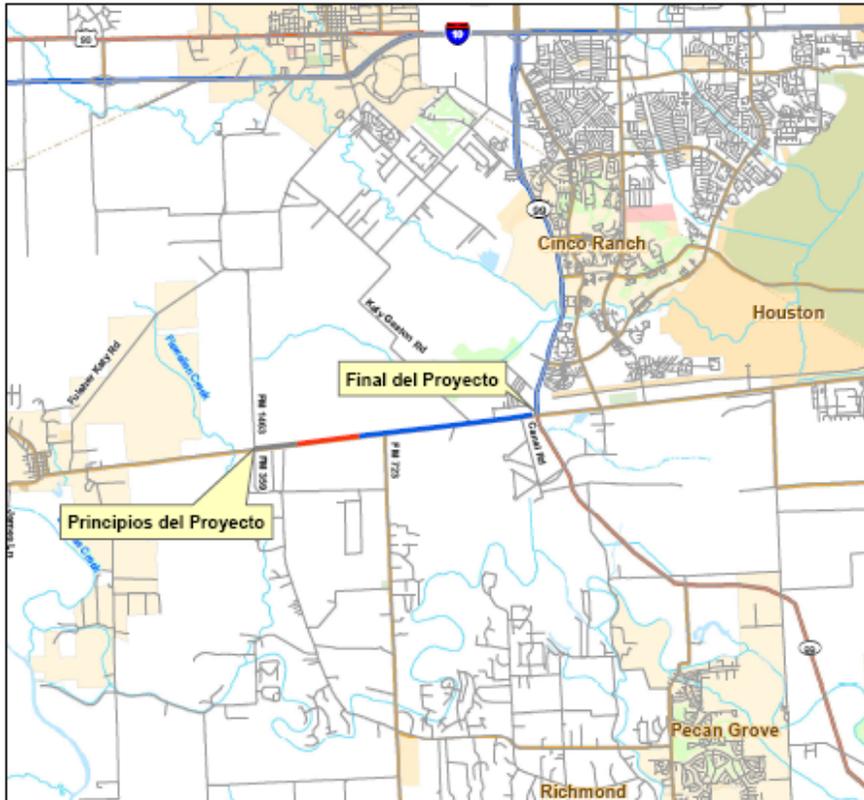

Purpose of Proposed Project

The project improvements are proposed to increase safety, reduce congestion, and improve operational efficiency,

The public is invited to ask questions and submit comments regarding the proposed project. Comments may be submitted in writing. Comment forms are available at the Sign-In table. Written comments may be submitted this evening, electronically to [HOU-PIOWebMail@txdot.gov](mailto:HOU-PIOWebMail@txdot.gov), or mailed to the address below. All comments must be received or postmarked by **November 10, 2011**.

REUNIÓN PÚBLICA  
6:00 p.m. a 8:00 p.m.**

**NOTAS DE LA REUNIÓN**

Esta reunión será en un formato de foro abierto a partir de las 6:00 p.m., y termina a las 8:00 p.m. Todos los asistentes se les pide que se registren en la mesa de registro, ubicada en la entrada de la reunión.

Descripción del proyecto

El condado de Fort Bend, en conjunto con el Departamento de Transporte de Texas (TxDOT) Distrito de Houston, propone ampliar FM 1093 desde FM 1463 hasta SH 99 en el Condado de Fort Bend, Texas. El proyecto propuesto es para mejorar la carretera, ampliaría la autopista existente de peaje Westpark (autopista de impuesto de cuatro carriles de acceso controlado con caminos sin peaje de acceso continuo) desde su terminal actual en la carretera SH 99 a través de la intersección de FM 723. Los carriles de peaje terminarían y conectarán con los caminos sin peaje laterales al oeste de la intersección de FM 723. La instalación de cuatro carriles divididos se continuara hacia el oeste, a través de la intersección de Westheimer Lakes North Drive. Al oeste de Westheimer Lakes North Drive, la carretera de cuatro carriles se acabara en la instalación de dos carriles existente, inmediatamente al este de la intersección de FM 1463/FM 359. Katy-Gaston Road y Spring Green/ FM 723, dentro de los límites del proyecto propuesto, se convertiría en intercambios de grado separado. Derecho de vía adicional se requeriría para el proyecto propuesto. El derecho de vía adicional se obtendría de propiedad privada, y una porción de derecho de vía de METRO. Desplazamientos mínimos/reubicación se requieren como parte del proyecto propuesto. La extensión del proyecto es de aproximadamente 4.2 millas, y la construcción del proyecto propuesto se prevé en 2013.

Propósito del Proyecto Propuesto

Las propuestas para mejorar el proyecto son para aumentar la seguridad, reducir la congestión, y mejorar la eficiencia operativa.

El público está invitado a hacer preguntas, y someter comentarios respecto al proyecto propuesto. Los comentarios pueden ser sometidos por escrito. Formularios de comentarios están disponibles en la mesa de registro. Los comentarios escritos pueden ser presentados en esta noche, por vía electrónica a HOU-PIOWebMail@txdot.gov, o por correo a la siguiente dirección. Todos los comentarios deben ser recibidos o con sello postal, para el 10 de Noviembre, 2011.

Other (Please explain) Commissioner Morrison announced it @ FB Chamber Infrastructure Breakfast.

**COMMENTS:**

\_\_\_\_\_  
I would like to see a connector lane (at grade) from S. bound 99  
to West bound frontage. This should be included in the project due to timing  
of construction & reduced delay time.  
\_\_\_\_\_

\_\_\_\_\_  
the project is desperately needed. Bumper to bumper traffic after  
5:00 pm is dangerous. Over flow traffic congests Fry Road & Ramp  
from 99 to Fry Road.  
\_\_\_\_\_

\_\_\_\_\_  
Accessing 1093 in the ~~pm~~ morning is dangerous @ Easton.  
\_\_\_\_\_

CONCERNING THE FEEDER ROAD FROM  
CANYON FIELDS DR. TO 99 (GRAND PARKWAY) HOW  
MUCH MORE CONGESTED WILL THIS BE FOR PEOPLE  
USING IT AND NOT THE TOLL-WAY? THERE IS AN  
AWFUL LOT OF TRAFFIC ON THIS ROAD + I DON'T  
IMAGINE A LOT OF THE PEOPLE WILL TAKE THE  
TOLL ROAD FOR THAT SHORT OF A DISTANCE.

**COMMENTS:**

I drive 1093 everyday. I have been driving it four over 6 years. There is dramatic congestion every morning going towards Houston, and every evening headed towards Fulshear. From 6:30 AM to 8 AM, it can take 15 to 18 minutes to move from 723 to 99. In the evenings, traffic is backed up east of 99 all the way to 723. The congestion cause drivers to do stupid things like driving on shoulders or merge gores. I see people try to cross this traffic from the side streets in desperate, fast and dangerous manner. I see bad driving caused by frustration almost every day.

Forwarded for your handling. Thanks.

Danny Perez

>>> "Kit. " <send4kit@yahoo.com> 11/10/2011 5:07 PM >>>

I attended the meeting held on October 27 to get information on how the proposed project will affect the 2 subdivisions. After seeing the proposed plans, I have a serious concern about how the project will affect the westheimer lakes and westheimer lakes north subdivisions, especially the access to and from the subdivisions. The westheimer lakes intersection is a major four way intersection and should be either ground level lighted intersection or further improve the tollway west with an elevated overpass and do it now as part of phase one construction.

Re: Westpark Tollway Expansion

To Whom It May Concern:

I am writing in support of the initial phase of the proposed expansion of the Westpark Tollway from State Highway 99 (Grand Parkway) to FM 723 (Spring Green Road) including improvements of FM 1093 west to FM 1463. These thoroughfare development projects are consistent with the major thoroughfare plan for the region and are critical to ensure safe and efficient mobility for the area as residential development continues to grow at a very fast pace. The Westpark Tollway is a key mobility component in transporting daily from this area thousands of existing and new residents into the City of Houston. TxDOT is encouraged to complete, as soon as possible, future phases of the Tollway expansion to the west to support tremendous residential growth in this area.

Research recently undertaken by a nationally respected demographic firm indicates that this area to the west of Highway 99, much of which is within the boundaries of Katy Independent School District, is one of the fastest growing suburban areas in the country. A report presented by the District's demographic consultant to our Board of Trustees on October 24, 2011, projects approximately 12,000 new housing units in the southwest sector of our District over the next ten years, with approximately 8700 of these being constructed within the next five years. These new housing units are situated in close proximity to both FM 1093 and FM 1463. These thoroughfares are necessary for the daily transport of students by way of school bus or personal vehicle. It is also extremely important that the major north/south collector thoroughfare of FM 1463 be developed now to support safe and efficient connection to the proposed Westpark Tollway expansion. Large master planned communities situated adjacent to FM 1463 are currently completing road connections into FM 1463 resulting in a tremendous volume of additional traffic on this road. Improvements to expand FM 1463 to ensure at least four lanes of safe, controlled thoroughfare from FM 1093 to I-10, as well as the elimination of 90 degree uncontrolled turns is critical to support the residential development in this area and to ensure both the safe mobility of our students, staff, and community, as well as the efficient connection to the proposed Westpark Tollway expansion. Only through the development of FM 1463 will the development of the Westpark Tollway prove entirely successful. We anxiously await these important road projects.

**COMMENTS:**

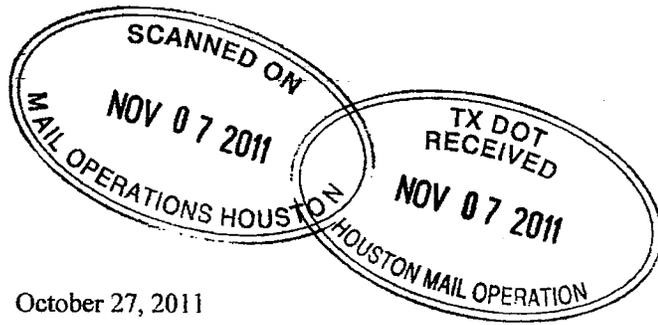

This project is greatly needed. It should be built as soon as possible. Any thing that can be done to accelerate the schedule should be done.

The traffic problems along FM1093 extend past Fulshear. Every effort should be made to extend the construction limits west either to Fulshear, or preferably, beyond.

Please make additional comments on the back.

Subject: Westpark Tollway and FM 1093 Expansion from Grand Parkway to Fulshear

Dear Sir:

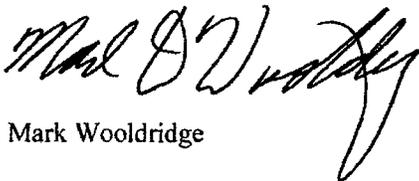

This area of FM 1093 has heavy bicycle use in the evenings and on the weekend. Consideration to bicycle use should be given during construction to accommodate cyclists. Conventional construction traffic control largely ignores cyclists. Shoulders should be retained during construction for cyclist use in this area of high volume bicycle use.

The project design should include bicycle lanes on the frontage roads and carry the lanes through the intersections. This area sees some of the highest cyclist usage in the Houston metropolitan area, with hundreds of cyclists riding on the roadway every weekend, and regular bicycle events with thousands of users.

To summarize:

- Wide shared lanes will not be adequate for the numbers of cyclists on these roadways.
- In rural areas bicycle lanes should be provided on the frontage roads if full (8' to 10') shoulders are not provided.
- In developed areas with curb and gutter on frontage roads wide bicycle lanes should be provided.
- Areas with turn lanes at intersections should carry the bicycle lanes through the intersections. If bicyclists are accommodated on the shoulder bicycle lanes should be provided through the turn lane areas.

Thank you for your consideration,

Mark Wooldridge

Re: Public Feedback for Proposed Extension of Westpark Tollway and FM 1093

Dear Sir or Madam:

Thank you for providing the opportunity for public feedback in response to the proposed extension of Westpark Tollway and FM 1093.

Katy ISD continues to experience unprecedented growth in residential housing in the southwest sector of our school district, including that area bordered by the Westpark Tollway and FM 1093. As a result, traffic mobility in this area is a particular concern of ours. Two distinct areas of concern are as follows:

1. Because Katy ISD buses travel the Westpark Tollway access roads and FM 1093 daily in transporting schoolchildren to and from our schools, it is important that both the Tollway access roads and FM 1093 have sufficient lanes to safely accommodate buses and passenger vehicles. Toward that end, we would respectfully suggest that the Tollway access roads and FM 1093 include four lanes – two in each direction.
2. There appear to be no immediate plans to improve FM 1463, a major north/south artery comprised of a single lane in each direction, between FM 1093 and Interstate 10. Since much of the traffic on FM 1463 will likely be connecting with the Westpark Tollway and FM 1093, any efforts to enhance the Tollway and FM 1093 will also create greater traffic volume on FM 1463. Travel on FM 1463 will also increase substantially in the next few years with the development of communities in the southwest sector of the school district. In addition, the recent connection to FM 1463 of major east/west thoroughfares such as Cinco Ranch Boulevard and Fry Road is expected to bring greater traffic to FM 1463. As you would imagine, many of our buses travel FM 1463 daily and that number is expected to increase even more as the area grows. To more safely accommodate buses and passenger vehicles, we would respectfully urge that serious consideration be given to the widening of FM 1463 in conjunction with the planned Tollway and FM 1093 expansion.

Again, thank you for the opportunity to provide feedback.

Sincerely,

G. E. McMeans, Jr.

Dear «Salutation» «Last\_Name»:

The Texas Department of Transportation will hold a public meeting to present proposed design alternatives regarding the widening of FM 1093 from SH 99 (Grand Parkway) to FM 1463 in Fort Bend County, Texas. Fort Bend County and Texas Department of Transportation representatives will be available to listen to public comments and answer questions from local officials and citizens.

You, or your representative, are cordially invited to attend this meeting that will be held as follows:

**Thursday, October 27, 2011  
6:00 p.m. to 8:00 p.m. – Open House  
Seven Lakes High School  
9251 South Fry Road  
Katy, Texas 77494**

We are available to meet with you prior to the public meeting to answer any questions that you may have or to review the proposed project. If you have any questions in the interim, please contact Mr. Pat Henry, P.E., Director of Project Development, at (713) 802-5241.

Sincerely,

Michael W. Alford, P.E.
