## **Land Transportation Standards Subcommittee Quarterly Report**

**April 2004**

**International Relations Office**

## **Introduction**

The Land Transportation Standards Subcommittee (LTSS) was created under the auspices of the North American Free Trade Agreement (NAFTA). The primary goal of the LTSS is to examine the land transportation regulatory regimes of Mexico, Canada and the United States, and work toward their harmonization.

As directed by Senate Concurrent Resolution No. 78, adopted by the 74th Legislature of the State of Texas, the following is the quarterly report on the progress of the LTSS and its related groups. This report has been prepared by the International Relations Office of the Texas Department of Transportation (TxDOT) and covers the quarter ending March 31, 2004. No activities were reported for this quarter.

This report begins with a summary of general LTSS and related activities. The sections that follow include activities of each of the LTSS Working Groups and Transportation Consultative Group Working Groups (TCGs). The report concludes with a list of planned LTSS activities. Please note that some groups have completed their mandates and are therefore not listed in this report.

The information in this report was provided by the U.S. Working Group chairs and other U.S. Department of Transportation (USDOT) officials, as well as published reports and information obtained from Mexican officials. The initial report, issued in September 1995, contains background material that will not be repeated here. To obtain a copy of that report or others, please contact the Texas legislative library or the TxDOT International Relations Office (IRO) at (512) 374-5326. This report and previous editions are also available on the web at [www.dot.state.tx.us/iro](http://www.dot.state.tx.us/iro). Additional information on previous LTSS-related work group activities is available at <http://dms.dot.gov>.

## **Summary of General LTSS and Related Activities**

In November, 2002 the moratorium on granting operating authority to Mexican motor carriers was modified. The U.S. Department of Transportation's Federal Motor Carrier Safety Administration was directed to act on the 130 applications from the Mexican domiciled truck and bus companies seeking to transport international cargo in cross-border services in the U.S. or to provide regular route services between Mexico and the U.S. Mexican carriers and drivers are required to meet the same standards and requirements as U.S. operators. Modifying the moratorium implements the truck and bus provisions of NAFTA and will open the way to expanded Mexican truck and bus operations in the U.S.

The U.S. and Mexico continue to work on developing mechanisms for Mexico to participate in the International Registration Plan (IRP) and the International Fuel Tax Agreement (IFTA).
