

Corridor Segment Committee 1 Meeting

July 23, 2010

Marshall, Texas

**I-69 Corridor Segment Committee 1
Meeting
July 23, 2010
9:00AM – Noon**

Welcome/Introductions

Administrative

Leah Olivarri
Facilitator

- Review May 2010 Meeting Notes
- Update on MPO Activities in Texarkana and Lone Star Army Depot
- Planning Features Map Book available for additional input

Finalize the Transportation Facilities to be Considered when Developing the I-69 Corridor Program Map

Leah Olivarri
Facilitator

- The CSC members will be asked if they have any final edits or additional input on which specific routes should be upgraded to interstate standards as a part of I-69 or which facilities the interstate should connect to and why.

CSC Review of the Updated Conceptual Interstate Layout within the CSC Limits Based on Input Received During the May 2010 Meeting

Marc Williams
Facilitator

- CSC Group Activity to review and begin to finalize the updated Conceptual Interstate Layout, which identifies the routes to be upgraded to interstate standards and where consideration should be given to relief routes, shifts in location, urban and rural typical section limits, access road limits, and interchange locations.
- Once the CSC completes work on reviewing and updating the Conceptual Interstate Layout, order of magnitude costs and potential individual project limits can begin to be developed for CSC review and input at the next CSC meeting.
- The Conceptual Interstate Layout is preliminary and is for planning purposes only as part of the process of developing a CSC based I-69 Corridor Program of individual projects.

Discussion of Next Meeting Activities

TxDOT

- Review CSC edits to the Conceptual Interstate Layout.
- Begin the process of reviewing potential project limits and order of magnitude cost estimates associated with developing an I-69 Corridor Program.

Wrap Up

- I-69 Corridor Program Facility
 - I-69 Corridor Program Connecting Facility
 - I-69 Corridor Program Rail Facility

WORKING DRAFT

This is an updated map from the February & May 2010 Corridor Segment Committee (CSC) meetings that reflects continuing CSC member input on identifying transportation facilities to be considered when developing the I-69 Corridor Program. During future CSC meetings, the CSC members will continue to have the opportunity to review and make further edits to this map.

Please note that the purpose of collecting this information was to gather ideas from the individual Committee members. These maps do not represent the recommendations of CSC or TxDOT.
