No.	QUESTION	RESPONSE	CLARIFICATION
1	I see that there are approx 100SF of vert/oh repair, but I do not see the locations of the spalls. Can you advise?	The current plans require additional clarification. Please refer to the clarification column for additional information.	There are no specific locations called out, this item is intended to be a call-out as needed
2	When will item number 770 6055 Repair Single Guardrail Terminal be used?	The current plans include information. Please refer to the clarification column for additional information.	As items are hit. Please refer to spec item 770.3.7 Repair of SGT . Remove damaged components and replace with new components. Salvage and reuse components as approved.
3	What distinguishes the difference between 770 6055 and 770 6027?	The current plans require additional clarification. Please refer to the clarification column for additional information.	There are several repair items included in the plans and the appropriate repair or replace item to be used will be determined by TxDOT depending on the type and severity of damage.
