<b>Let Date:</b>	September 19, 2022
<b>From:</b>	
<b>To:</b>	
<b>County:</b>	
<b>District:</b>	Bryan
<b>Addendums:</b>	
<b>General Desc:</b>	ALL CONTRACTS BRYAN DISTRICT SEPTEMBER 19 <sup>TH</sup> LETTING

**NOTIFICATION OF CONTRACT RESCHEDULE:** As many of the Contractors attempting to submit bids for Local Lettings are aware, an I.T. issue has disrupted the submission of Bid Bonds through the Surety Systems associated with the Texas Department of Transportation. Because of the timing of the issue, Contractors cannot submit bids to Bryan District in a timely manner prior to the “Bids Received By” time.

To allow ample time to submit bids to the system, it is therefore necessary to reschedule the Lettings for the following projects:

### Maintenance Materials Contracts:

- 6417-22-001 ( Bulk Salt – Brenham Area Office)
- 6417-58-001 ( Bulk Salt – Supersacks – Bryan Area Office)
- 6395-49-001 ( Complex Chloride – Huntsville Area Office)
- 6416-86-001 (Rip Rap – Brenham Area Office)
- 6415-36-001 (Flexbase – Huntsville Area Office)
- 6416-22-001 (Cement / Flowable Fill – Bryan Area Office)

### Bridge Preventative Maintenance Contracts:

- 6414-37-001 (FM 1445 – Little Pond Slough)
- 6414-01-001 (SH 6, etc; Brazos County – various locations)

These projects, formerly scheduled to be Let on September 19<sup>th</sup>, 2022 are to be readvertised and will be available for letting at a later date. At present, that future letting date is not set, but is anticipated to be some time in October.

When re-bidding these plans, be sure to check for revisions made to accommodate previous pre-bid questions and updates to the Contract General Notes.
