

6412-41-001 Pre-Bid Questions and Responses

CSJ	Question Number	Date Received	Question	Response
6412-41-001	1	10/10/2022	<p>1. Wanted to confirm that we only need to set any required daily traffic control and that we don not need to set perimeter barricades at each site.</p> <p>2. Sheet 9 – FM 1118 @ Jaboncillos Creek - Table of work shows to remove 460 SY of riprap, plan details has SF shown so the stone riprap quantity is based upon 460 SF to get to the 39 CY. If we are removing 460 SY of riprap then we would need closer to 345 CY of stone riprap. Just wanted to confirm if the concrete removal quantity is incorrect or if the stone riprap is?</p>	<p>1. All pertinent perimeter barricades will be required per plans.</p> <p>2. Bid as shown on plans.</p>
