

**Project:** RMC-637730001  
**From:** Various Roadways  
**To:** In the Northwest Dallas County Maintenance Sections  
**Control:** 6377-30-001  
**Highway:** SL0012  
**County:** Dallas

Date	Questions	Answers
4/1/2021	Item 502 states that all work on travelled roadway will be done at night. Does this include shoulder work? I'm assuming this would be for mainlanes but need clarification.	Shoulder work and lane closures can be approved on a case by case basis between 9 AM and 3 PM.
4/1/2021	Item 545 states that all attenuator installations will have to have Bi Direction transitions and that they are subsidiary to this item. Can you clarify this? This is a big expense if we are talking about adding Bi directional transitions to areas of traffic that are only directional, so I need clarification on this subject.	Bidirectional transitions not required in areas that are only directional.
