

Project: 6344-76-001
From:
To: Various Locations in West Dallas County
Control:
Highway: IH0030
County: Dallas

Date	Questions	Answers
8/27/2019	Will you please define the different types of lane closures from type 1 to type 23.	Each of these closures are defined in the special specifications.
8/27/2019	How much will the deduction be for time violations?	Deductions will be determined by the liquidated damage fee.
9/3/2019	Does item 6185-6002 TMA (STATIONARY) require a standby laborer, or is standby labor excluded from the daily rate once the TMA is delivered and stationed on site?	TMA should come with an operator
9/3/2019	Is lunch deducted from the time paid on site each day, and if so how much off-time is allotted for lunch	The contractor will manage their personnel. The contractor is responsible for their equipment being manned at all times.
9/3/2019	Please define when time starts and stops each day	Hourly time for closures does not begin until the closure is set up correctly.
9/3/2019	In an effort to minimize asset relocations and reduce mobilization expenses for the State, will contractors be allowed to station serialized assets, such as TMAs, at the TxDOT yards?	No
9/3/2019	The General Notes specify that "All work on traveled roadway surfaces will generally be performed at night". It later contradicts by specifying that lane closures need to take place between 9am - 3:30pm. Is this contract primarily for work to be performed during daytime or nighttime hours?	We try not to have any main lane closures during the day unless it is an emergency.
