

PREBID QUESTION AND RESPONSE LOG

SH 36 - 0111-08-100

7/22/2021	The Proposed asphalt widening in Phase 1 of the project is called out and paid for using the bid items shown in the graphic below. This area in its final configuration appears to be removed and replaced with the typical CRCP pavement section. Please clarify how the removal of the asphalt pavement is to be paid for. It would seem that this section would be more suited for a "Constructing Detours" bid item instead.	The asphalt widening constructed in Phase 1 will be removed using Item 105-6062 (See plan sheet 28).	7/23/2021
