

PRE-BID Q&A #2

RMC 6404-39-001

IH 45 General Maintenance

South-East Harris Area Office

Letting: 2/1/2023

Question Number	Date Received	Question	Response
1	1/28/2023	What contract is this work currently being performed under? When does that contract expire or when does this new contract begin?	Current contract is RMC 6375-52-001 and expires on 7/10/23. The begin date on the new contract depends on the execution date and will be discussed in the pre-construction meeting.

2	1/31/2023	How many TMA's are included/required for Item 6185 6003 – TMA (Mobile Operation)? 1, 2 or 3?	<p>See General Notes – Sheet 40 – Item 6185: Truck Mounted Attenuator (TMS) and Trailer Attenuator (TA) – See below:</p> <p>A shadow vehicle with Truck Mounted Attenuators (TMAs) or Trailer Attenuators (TAs) is required as shown on the appropriate Traffic Control Plan (TCP) sheets. TMAs/TAs must meet the requirements of the Compliant Work Zone Traffic Control Device List.</p> <p>Level 3 Compliant TMAs/TAs are required for this project.</p> <p>A total of one (1) shadow vehicle with a TMA/TA is required for the work with the exception of Pavement Marking Operations. The Contractor is responsible for determining if one or more of these operations will be ongoing at the same time to determine the total number of TMAs/TAs needed on the project.</p>
3	1/31/2023	How is snow and ice equipment expected to be paid for without a mobilization payment (500 6001)?	<p>This contract is for 2 yrs. – Item 7093-6004 Snow and Ice Control (Season) is paid by the month and has a quantity of 6 – Contractor will be paid for standby equipment once a month: December, January, and February.</p>
4	1/31/2023	Certain pieces of snow and ice equipment need to be procured prior to the start date to be ready on December 1.	<p>See General Notes – Sheet 40 – Item 7307: Snow and Ice Control</p>
