

PROSPECTIVE BIDDER'S INQUIRIES

CSJ: 0597-04-005

Bid Opening Date: February 1, 2023

No.	QUESTION	TxDOT AREA OFFICE RECEIVED QUESTION FROM BIDDER	RESPONSE
		DATE	
1	The above referenced project bids in the February letting. Please post the project schedule to the website.	1/23/2023	The project schedule is posted to this FTP site.
2	Which PG do we use on the San Augustine CO 2-2-23 job? The typical section on the plans shows to be PG 70-22, the roadway summary, notice to contractors, and the estimate quantity sheet all show PG 64-22.	1/24/2023	Bid per Item in the plans.
3	Would TXDOT consider using a SP-C for this job since the compaction is 1.5" versus the SP-D?	1/24/2023	Please bid according to the material type specified in the plans.
4	General notes sheet 4D-J—In the next to last paragraph there is the standard info about staging equipment along the right-of-way. Plan sheet 67 EPIC VII.2 states “No stockpiling or storage of storage of equipment is allowed within the project limits and boundaries of the Angelina National Forest”. Does this mean all equipment has to be removed from the project daily? Does the EPIC sheet note trump the general note? Please clarify.	1/25/2023	The general notes govern over plan sheets per Item 5.4. Please refer to the guidance under Item 502 in the general notes.
