Contractor Questions and Responses

CSJ 6336-68-001  
let date 7/16/2019

**QUESTION  
NUMBER**

**CONTRACTOR QUESTION**

**TxDOT RESPONSE**

<b>QUESTION NUMBER</b>	<b>CONTRACTOR QUESTION</b>	<b>TxDOT RESPONSE</b>
1	Can you explain what the 644 bid items consist of? They do not contain "SA" or "SB" signifying how they should be anchored. Do we need to bid the anchoring section of the assemblies? If so, will they all be SA's?	All the existing foundations remain. The only portion that needs replaced is the top portion which is the same part for SA & SB.
2	Are new castings going to be required on bid items that are needing new posts, or will the contractor be able to reuse the existing castings?	No.
3	If a new casting is required will it have to be the Southern Plains style casting?	The plans do call out any specific manufacturer except they must on the approval list.
