

PROSPECTIVE BIDDER'S INQUIRIES

CSJ: 6393-93-001

Bid Opening Date: 1/25/2022

No.	Question	Date Received	Response	Response Date
1	I am a supplier working to quote this project. I have looked at each of the signs and steel requirements, but there are 2 that are missing. Sheet 7/ sign 1-NB the lbs of steel for the stub was left off the total	1/5/2022	The weight of the stubs to be used is estimated at 97 lbs.	1/10/2022
2	Sheet 7/ sign 6-NB the size and totals for the steel legs were left off	1/5/2022	Post 1 - 11', Post 2 - 13', total steel weight estimated at 360 lbs.	1/10/2022
3	We need to know the size of the steel for each structure	1/14/2022	The size of the steel is under the size column.	1/19/2022
4	On the REFURBISH, none of them say a new sign is needed yet the bid item # is 636-6005 REFURBISH TY G SIGN??	1/14/2022	Only hardware is required for these signs. The existing sign remains at the site and is anticipated to be reused.	1/19/2022
5	Does the steel needed on the REFURBISH get paid for under 647-6001 or 636-6005?	1/14/2022	636-6005	1/19/2022
6	The QTY for TY G signs and for the steel do not add up correctly	1/14/2022	The discrepancy in the steel is between the sign summaries and the quantity summary, and this was already addressed by questions 1 and 2. The sign summaries accounted for the 97lb and the qty summary did not. I did not find a discrepancy in the Ty G signs.	1/19/2022
7	Is there a chance there will be an addendum for this project?	1/14/2022	An addendum is not being considered at this time.	1/19/2022
