#	DATE RECEIVED	STATUS	QUESTION	ANSWER
1	3/18/2020	In Progress	engineer. Will live-bottom trailers be allowed for material delivery?	Belly dumps were specified because they will work for all of our operations. However, live dump trailers will be allowed a majority of the time. There will be times that belly dumps will be required. It is the responsibility of the contractor to coordinate with the maintenance supervisor for project specific and site specific details. The contractor should seek approval of trailer types prior to delivering material for each specific project site.
