#	DATE RECEIVED	STATUS	QUESTION	ANSWER
1	1/20/2022	Complete	Will the frequency of debris pick up in the General Notes be utilized? If the frequency of debris pick up shown in the General Notes is not adequate for debris removal how will that be handled?	If the frequency of debris pick up shown in the General Notes is not sufficiently removing the debris from the roadway then item 735-6007 Debris Removal (Spot Debris) will be utilized to ensure excess debris is removed from the roadway between cycles. Historically the debris removal frequency shown in the General Notes has been adequate to keep debris from accumulating on the roadway.
2	1/20/2022	Complete	What equipment should be expected to be utilized for debris removal?	Please refer to item 725.2 Debris Removal, provide equipment that prevents the accumulated debris from being strewn along the roadway during transport. It is not TxDOT's responsibility to inform the contractor performing the debris removal what equipment must be used to remove debris from the roadway. The correct traffic control plan must be utilized with the safety devices shown in order to perform debris removal
3	1/20/2022	Complete	What items of debris should be expected?	Please refer to item 735.1 Debris Removal, debris includes all objects not part of the highway facility, such as dead animals, tires, tire fragments, wood, furniture, mattresses, household appliances, and scrap metal.
