

OAK HILL
PARKWAY

YOU ARE INVITED

PLEASE JOIN US FOR AN OPEN HOUSE

Traffic congestion in Oak Hill is a serious problem and negatively impacts mobility, safety and quality of life. Drivers waste thousands of hours each year stuck in traffic, and emergency responders do not have reliable routes to serve the community. It's our duty to search for a long-term mobility solution in Oak Hill and the surrounding communities.

Since 2012, TxDOT and the Mobility Authority have been working with stakeholders to identify a transportation solution to provide meaningful traffic relief for Oak Hill. Ten mobility concepts have been evaluated and three potential solutions are currently being studied further.

We're in year three of a four year process, and we continue to need your input!

PROJECT PARTNERS

WHAT:
OPEN HOUSE NO. 6

WHEN:
Thursday, Oct. 29, 2015
4:30 – 7 p.m.

WHERE:
Covington Middle School (cafeteria)
3700 Convict Hill Road
Austin, TX 78749

No formal presentation is planned. Come and go at your convenience to review the potential solutions being evaluated and speak with project representatives.
