THE TEXAS AIRPORT SYSTEM
The Texas airport system with 289 airports is one of the largest airport systems in the country. It consists of 25 commercial service airports and 264 general aviation airports. These airports play an important role in the Texas economy by providing well-paying jobs, stimulating growth, and serving as critical components in a transportation network that permits the movement of people and goods across the state, throughout the country, and around the world. These airports are responsible for billions of dollars of economic activity, and support a wide assortment of businesses and activities. The state’s commercial service airports serve as hubs for United Airlines, American Airlines, Southwest Airlines, FedEx and UPS Airlines. The general aviation airports are host to a variety of businesses. Aerial applicators, such as M&M Air Service, help crops thrive. Air ambulance services, like PHI Air Medical and CareFlight, are based at general aviation airports throughout Texas in order to provide life-saving emergency flights where needed. Aircraft manufacturing takes place at Kerrville Municipal Airport in the Mooney factory. These airports support firefighting and disaster relief efforts. Aviation schools found on general aviation airports feature training for aircraft mechanics, fixed-wing pilots, helicopter pilots, skydivers, and even drone pilots. Military aircrews make use of many general aviation airports for training purposes. Finally, more than a dozen Texas general aviation airports host aviation museums and other nonprofit aerospace organizations that educate and promote the history of aviation.

Thanks to these businesses and organizations, and the millions of visitors that pass through Texas airports each year, the state’s economy thrives and grows.

STATEWIDE BENEFITS FROM AVIATION
The total impacts of Texas system airports amount to 778,955 jobs that received $30.1 billion in wages and benefits. These workers generated $94.3 billion in economic output. On top of this, the Texas airport system provides countless benefits that improve the health, safety, welfare, and quality of life for the people of Texas.

Furthermore, more than 17 million visitors passed through the state’s commercial service airports, with another 1.5 million visitors making use of the Lone Star State’s general aviation services.

TOTAL JOBS: 778,955
TOTAL PAYROLL: $30.1 BILLION
TOTAL OUTPUT: $94.3 BILLION

STUDY PROCESS
This study was undertaken by the Texas Department of Transportation’s Aviation Division to improve their strategic planning and funding decisions. Knowledge of each airport’s economic impacts helps the Aviation Division allocate its resources in its efforts to develop and maintain the airport system as a world-class system capable of attracting businesses and visitors to Texas. This, in turn, aids the Aviation Division in supporting infrastructure development projects intended to promote economic growth around the state.

Through an extensive data gathering effort, information from each Texas system airport was compiled and validated. This data served as the input for a linear economic input-output model that expressed each airport’s economic impacts in terms of employment, payroll, and output. Each airport was analyzed for its on-airport, construction, and visitor-related impacts. Multiplier impacts were calculated to show how direct airport activity creates additional benefits. The process followed Federal Aviation Administration guidelines and has been used in previous Texas airport economic impact studies. Additionally, certain qualitative benefits were identified for the system airports.
**Economic Impact of EAST TEXAS REGIONAL AIRPORT (GGG)**

**BASIC INFORMATION:**
The East Texas Regional Airport is a public-use, commercial service facility that serves the region’s air transportation needs. The airport maintains two runways, 13/31 and 18/36. Runway 13/31 is 10,000 feet and 18/36 is 6,109 feet, Runway 13/31 is equipped with high intensity runway lighting while Runway 18/36 is equipped with medium intensity lighting. Both runways are provided with full length parallel taxiways. Operations at the airport are supported by ILS, VOR/DME, and RNAV(GPS) approaches. Other services include avgas and jet fuel services and aircraft storage in corporate and T-hangars. East Texas Regional Airport is included in the National Plan of Integrated Airport Systems, making it eligible for federal Airport Improvement Program grants.

**QUALITATIVE BENEFITS:**
Envoy Air, a subsidiary of American Airlines, flies Embraer ERJ-140 regional jets from East Texas Regional to Dallas-Fort Worth International two times per day. This air service enplaned more than 19,000 passengers in 2017.

The airport hosts the annual Great Texas Balloon Race that draws over 20,000 attendees to the airport and consistently accommodates morning Chamber Brews. Additionally, the FAA has designated the local air traffic control tower as a training tower for controllers transitioning from their academic portion of certification to real time certification. The regional and local Chamber of Commerce and Economic Development Corporations support the airport through continuous marketing efforts. Local support for the airport will continue through various tax revenue outlets, illustrating the commitment of the community to support the ongoing operations of the airport.

**IMPACT MEASURES**

**Employment** measures the number of full-time equivalent (FTE) jobs related to airport activity including visitor-supported and on-airport construction jobs. A part-time employee counts as half of a full-time employee.

**Payroll** measures the total annual salary, wages, and benefits paid to all workers whose livelihoods are directly attributable to airport activity.

**Output** measures the value of goods and services related to airports in Texas. The output of on-airport businesses is typically assumed to be the sum of annual gross sales and average annual capital expenditures.

**Direct Impacts**
- **On-Airport Impacts**
  - 173 JOBS
  - $31.7 MILLION OUTPUT

**Multiplier Impacts**
- **Capital Improvement Impacts**
  - 54 JOBS
  - $9.6 MILLION OUTPUT
- **Visitor Impacts**
  - 112 JOBS
  - $6.3 MILLION OUTPUT

**Total Impacts**
- **Employment**
  - 681 JOBS
- **Payroll**
  - $29.8 MILLION PAYROLL
- **Output**
  - $88.7 MILLION OUTPUT
