Utility Adjustments for SBC

The Contractor’s attention is directed to the scope of the Utility Adjustments for SBC.

The Contractor and Approved Subcontractors construct all required utility adjustments within the limits of this project including any peripheral adjustments that may not have been discovered during the design process. These adjustments shall be paid for directly as detailed in Measurement and Payment of the Special Specification, Item 5246, “SBC Telecommunication System.”

The Contractor is required to subcontract this portion of the proposal only to an authorized SBC contractor. The approved contractor shall install all telecommunication facilities proposed for SBC within this project.

Below is a sample list of current SBC approved contractors. Other qualified Contractors not included in this list are allowed, if approved by SBC. Contact SBC Manager-Construction Contract Coordinator, Vicki Neumann at office 972-569-3048 or fax 972-569-4793, for information on how to become an approved SBC contractor.
