

Fly Ash

Material Producer List

Materials & Tests Division

Fly Ash

The following sources are prequalified in accordance with DMS-4610, “Fly Ash,” or DMS-4615, “Fly Ash for Soil Treatment.”

This Material Producer list applies to projects let after the June 2020 letting.

The Department reserves the right to conduct random sampling of prequalified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, terminal, shipping container, and concrete plant. The Materials & Tests Division (MTD) reserves the right to test samples to verify compliance with DMS-4610 or DMS-4615.

All sources approved in Table 1 and Table 2 are also approved for use for Soil Treatment.

For more information, contact MTD’s Rigid Pavements and Concrete Materials Section at (512) 506-5858.

NOTES

1. An ampersand (&) designates the two units are collected in the same silo and sold as one.
2. A semicolon (;) designates the units are collected individually and sold individually.
3. The Department will verify the minimum replacement for option 1 annually or when a major change occurs in material composition or production.

4. Option 8 can be followed to use a dosage lower than the minimum replacement value reported in the MPL.
5. If Option 8 testing is conducted to lower the replacement percentage, Oak Grove will be used in this testing.
