Fiber-Reinforced Polymer

Overview

The following list of fiber reinforced polymers are pre-qualified in accordance with DMS-4700, “Externally Bonded Fiber Reinforced Polymer (FRP) System for Repairing and Strengthening Concrete Structure Members.”

The Department reserves the right to conduct random sampling and testing of pre-qualified materials to verify performance and Specification compliance and to perform random audits of documentation. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse.

For more information, contact the Bridge Division at (512) 416-2306.
