

Glass Traffic Beads

Material Producer List

Materials and Tests Division

Glass Traffic Beads

The following manufacturers of glass traffic beads have complied with DMS-8290, “Glass Traffic Beads.” This Specification describes the procedure for pre-approval.

The materials listed below are pre-qualified for use when DMS-8290 is referenced. These materials require no further testing before use unless deemed necessary by the Project Engineer or MTD. Tex-830-B, “Sampling Traffic Beads,” describes the sampling method.

The Department reserves the right to conduct random sampling of pre-approved, certified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. MTD reserves the right to test samples to verify compliance with DMS-8290.

For more information, contact MTD’s Coatings and Traffic Materials Section at (512) 865-1542.

Type II Beads

Producer
Ennis-Flint, Inc
