Multipolymer Pavement Markings

The following products are pre-qualified for use whenever multipolymer pavement markings are specified.

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. CST/M&P reserves the right to test samples to verify compliance with the specification requirements for multipolymer pavement markings.

For more information, contact the Materials & Tests Division's Coatings and Traffic Materials Section at (512) 865-1542.
