

Paintable Caulk for Concrete and Steel

Material Producer List

Materials & Tests Division

Paintable Caulk for Concrete and Steel

The following list of products and manufacturers meet the requirements of DMS-8142, “Paintable Caulk for Concrete and Steel.”

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. CST/M&P reserves the right to test samples to verify compliance with the specification requirements for multipolymer pavement markings.

For more information, contact the Materials & Tests Division’s Coatings and Traffic Materials Section at (512) 865-1542.
