

Prime Coat Binders

Material Producer List

Materials & Tests Division

Prime Coat Binders

The following producers are pre-qualified to supply specialty materials for use as prime coat binders in association with Standard Specification Item 310, "Prime Coat." The listed products have demonstrated successful use on multiple TxDOT projects and are considered suitable for general use. Sampling and testing according to plans, applicable specification, or the Guide Schedule of Sampling and Testing may still be required. The Department reserves the right to sample and test materials at any time.

For more information, contact the Materials and Tests Division's Flexible Pavements Section at (512) 506-5821.
