

Surface Finishes for Concrete

Material Producer List

Materials & Tests Division

Surface Finishes for Concrete

The following manufacturers for concrete surface finishes have complied with DMS-8110, "Coatings for Concrete." This Specification describes the procedure for pre-approval.

These manufacturers are pre-approved to supply the following products for use on Department projects and requisitions when DMS-8110 is referenced. The materials will require sampling and testing before use unless supplied from pretested stock. Tex-736-I, "Sampling Structural Coatings," describes the sampling method.

The Department reserves the right to conduct random sampling and testing of pre-qualified materials to verify performance and Specification compliance and to perform random audits of documentation. Department representatives will select random samples from materials submitted to the Department on contracts or direct State purchase orders.

For more information, contact the **Materials and Tests Division's** Coatings and Traffic Materials Section at **(512) 865-1542**.

Adhesive Grout (Latex Emulsion only)

Producer	Product
A.C. Horn	Hornweld
Rohm & Haas	Rhoplex E-330
Sonneborn Bldg. Products	Sonocrete
Standard Dry Wall Products	Acryl 60
W.R. Grace	Daraweld-C
