The public meeting will be conducted in an open-house format with an informational presentation given at 5:30 p.m. Those wishing to attend are encouraged to do so at their convenience between the hours of 5:00 p.m. and 7:00 p.m. Maps of the project study area and preliminary layouts of project alternatives will be available for review and comment. The proposed project consists of constructing direct connectors, ramps, and/or auxiliary lanes and widening existing ramps and direct connectors between I-10, I-110, US 54, and Loop 375 (César Chávez Border Highway). The improvements are needed to improve mobility and address congestion on the existing roadway network. The project may require the acquisition of additional right-of-way. After the meeting, TxDOT will evaluate public input, refine the project alternatives, and identify a preferred design to evaluate further.
