

Project Certification Form and Approval to Commence Construction

Maritime Infrastructure Program

Project Certification Form and Approval to Commence Construction

The Maritime Infrastructure Program Certification form below will be used after design and advertising is completed but before the Port or Navigation District awards the project to the contractor. The Port or Navigation District is responsible for certifying and having documentation that it has complied with all federal, state and local laws, statutes, ordinances, rules and regulations, and orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of the Advance Funding Agreement, including without limitation, workers' compensation laws, minimum and maximum salary and wage statutes and regulations, non-discrimination laws and regulations, licensing laws, regulations, and Texas Uniform Grant Management standards. The authorized person from the Port or Navigation District should sign the form and provide an original to TxDOT.

Once TxDOT receives the certification from the Port or Navigation District, the TxDOT authorized representative will approve the Port or Navigation District to commence construction by signing the form below.

If you have any questions, please contact TexasMIP@txdot.gov or anyone in the Maritime Division.

Port/Nav District _____ Project Name _____
