PROJECT COMMITMENT

The applicant confirms understanding of the following requirements by checking boxes and signing below.

The Project Oversight Level Special Approval (SPA) Part A and Part B must be executed within three months of award.

The AFA must be fully executed within one year of the award. Please note that the project sponsor must have an agreement with all property owners prior to AFA execution.

The project must be let prior to August 31, 2025.

This is a reimbursement program. The project sponsor must expend its funds and reimburse its contractor(s) prior to seeking reimbursement from the State. Invoices must be submitted with proper monthly documentation beginning no later than 90 days after the contractor Notice to Proceed.

Any modifications or additions to the original scope require prior approval from the state.

Until authorized by TxDOT Approval To Commence Construction, the project sponsor should not enter into a contract or incur costs for any aspect of the project for which the project sponsor is seeking state participation. No costs incurred prior to contract execution will be reimbursed by the State.

The project sponsor is responsible for any amount exceeding the amount awarded by the commission (i.e., project cost overruns).

The project sponsor must complete monthly project reporting in the required format.
