

Bypass I-35 congestion for \$9 or less through Jan. 25.

Let's face it. There are times when traffic on I-35 can be a challenge.

There's a way to avoid all that congestion. Take the 56-mile 130/45SE toll bypass around Austin. For a limited time, trucks will pay a reduced rate of \$9 or less to travel the Austin Bypass between Georgetown and Buda.

TxTag commercial accounts are convenient.

With a TxTag, you will always pay the lowest toll rates in Austin and on toll roads throughout the state.

A commercial account is required if your vehicle has more than two axles or if you need more than five vehicles on one account. There's no limit to the number of TxTags you or your company can have under one commercial account. You can view toll road activity for all trucks on one account statement, and you'll only need to monitor one toll account balance.

Set up your TxTag account today.

Call 1-888-468-9824 to speak with a friendly TxTag representative. To find out more about the benefits of TxTag, visit

www.TxTag.org

Note: All oversize/overweight travel on toll roads must be approved by the toll authority (512-874-9713). Strictly enforced by law enforcement.

©2012 Texas Department of Transportation (1/2012)

Trucks save 67% on the Austin Bypass now through January 25.

Reduced toll rates for trucks apply for a limited time to travel on SH 130 and SH 45 Southeast. Toll rates on Loop 1, SH 45N, and 183A remain unchanged. A \$1 fee is applied to monthly bills for Pay By Mail customers.
