## About the Mapbook

**Design**

*The County Mapbook* divides the state into 551 maps. These maps are referenced using the grid index on the inside front cover.

Also contained within the Mapbook are feature indices and a reference map which are located in the front of the book.

The scale for core maps is 1:120,000 and one inch equals approximately 1.89 miles.

0 1 2 4 Miles

**Navigation**

Every map in the book is aligned with true geographic north. Additionally, each of the maps connects on one or more sides with surrounding maps, so you can follow a road north or south into the next county simply by turning the page.

The number highlighted in orange is the page number. Adjacent maps are indicated by the number highlighted in blue.
