Public Involvement Process

The Public Involvement Policy for the San Angelo MPO provides an opportunity for citizens, groups, agencies, and private providers of transportation to be included in the transportation planning process. Part of the process includes the ad hoc Citizen Advisory Committee comprised of citizens interested in a specific transportation issue such as bicycle/pedestrian paths. The San Angelo MPO encourages continuing public involvement in all aspects of transportation planning. The involvement process is pro-active and provides complete information, timely notice, and full public access to key decisions. Efforts are made to accommodate traditionally underserved citizens including low-income and minority households and persons with disabilities.

San Angelo MPO developed a Public Involvement Policy (PIP), approved by the MPO in March 1994, revised in July 1999, and again in August 2004. The draft amended PIP was out for public review from August 11, 2004 thru September 28, 2004. The final amended PIP was formally adopted at the October 6, 2004 MPO meeting. The PIP is reviewed on a continual basis to ensure that it meets the goals and challenges of the MPO area. Following the SAFETEA-LU passage, the PIP was amended to the Public Participation Plan (PPP) and ensures compliance with the SAFETEA-LU mandates set forth within it. This updated plan was presented in draft version at the December 5, 2007 MPO meeting and notice was placed in the San Angelo Standard Times. It was available for public comment from December 6, 2007 thru January 19, 2008. No comments were received. The final document was presented at the MPO meeting on January 24, 2008.

The PPP outlines procedures for public participation to ensure the public is informed about transportation issues throughout the planning process. It also gives the public adequate opportunity to express opinions and concerns about transportation issues. The PPP ensures transportation plans, policies, and decisions have public input. The PPP outlines the means used to inform the public through project solicitation, public notice, public review opportunities, public comment opportunities, and public meetings.

The San Angelo MPO also maintains a website, www.sanangelompo.org, to assist with public involvement. Citizens can e-mail MPO staff with comments and questions. The website provides viewable and downloadable versions of all MPO documents, as well as maps of the MPO area and information on transportation planning including street closures due to current transportation construction projects.

A public notice soliciting public input concerning project selection for inclusion in the FY 2008-2011 TIP was placed in the San Angelo Standard-Times on March 4th and March 25th, 2007 with a deadline for comments of April 27, 2007. No comments were received during the allocated time. A public meeting was held on April 4, 2007 immediately following the MPO Board meeting at the Texas Department of Transportation Assembly Room. This updated plan was presented in draft version at the December 5, 2007 MPO meeting and notice was placed in the San Angelo Standard Times. It was available for public comment from December 6, 2007 thru January 19, 2008. No
comments were received. The final document was presented at the MPO meeting on January 24, 2008.

A public meeting was held on June 17, 2009 to discuss the American Recovery and Reinvestment Act Projects. Public comment was received regarding Avenue N project. Public notice was placed in the Standard Times and on the MPO website on October 28, 2009 – no comments were received.

Public notice was placed in the Standard Times and on the MPO website on January 22, 2010 with a deadline of January 31, 2009 - no comments were received.

**Project Selection Process**

The TIP outlines projects which are consistent with the Metropolitan Transportation Plan (MTP). Long-range transportation projects encompassing the years 2005-2030 were projected in the MTP approved on November 17, 2004. The MTP includes a Project Selection Process that was drafted on March 10, 2004, approved on April 14, 2004 and amended on July 14, 2004. This process defines how projects are selected for the MTP. From the MTP the projects are moved into the TIP for short-term status. This process is closely integrated with the public involvement process. The project selection process begins with the call for projects during which the public is able to recommend projects to the MPO. The MPO, in conjunction with TxDOT, evaluates and prioritizes projects. Projects are selected for implementation from the approved TIP in the following manner:

1. Projects from the first year of the approved TIP are considered the first priority and may be implemented as soon as plans are completed and funds appropriated.
2. Projects in the second, third, and fourth years of the TIP are considered to have second, third, and fourth priorities, respectively.

**Progress from the Previous Year**

The following projects were implemented or scheduled for letting and/or design during Fiscal Years 2005, 2006 and/or 2007.
