

# Accelerating Projects from a District Perspective

Bridge Breakout Session 1

April 18, 2023

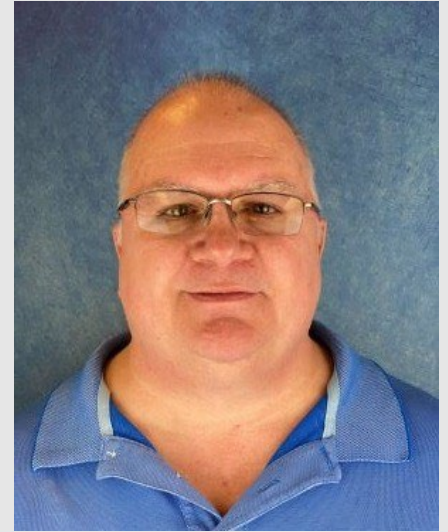

**Jon Boleware, P.E.**  
TxDOT Bridge Division  
Design Group Lead

**Michael Carson P.E.**  
TxDOT Houston District  
Transportation Engineer,  
Bridge Design

**Jeffrey Vinklerek, P.E.**  
TxDOT Yoakum District  
Director,  
Transportation, Planning  
and Design

**Tracy Jones P.E.**  
TxDOT Abilene District  
District Design Engineer

What are some of the biggest challenges that Districts face when it comes to accelerating bridge projects, and how have you addressed these challenges?

What factors do you consider when deciding which projects to accelerate?

Have you implemented any new technologies or processes to help accelerate bridge projects, and if so, what have been the key benefits and challenges of these innovations?

What are some of the most effective strategies you have used to reduce project timelines, and how have these strategies impacted the quality of the work?

What lessons have you learned from previous accelerated bridge projects, and how have you incorporated these lessons into your current work?

How do you work with other stakeholders, such as contractors and local governments, to ensure that accelerated bridge projects are successful?

What role does road user data and analytics play in accelerating bridge projects, and how do you use these tools to optimize project timelines and costs?

Can you share examples of specific bridge projects that you have successfully accelerated, and what steps did you take to achieve these results?

What do you see as the future of bridge construction, and how do you plan to stay ahead of emerging trends and technologies in this field?
