Tyler District

West Jacksonville Water Supply Corporation (WSC) has submitted an application for financial assistance in the form of a loan of up to \$1,443,300 from the State Infrastructure Bank (SIB) under Transportation Code, Chapter 222, Subchapter D, and Title 43 Texas Administrative Code (TAC), Chapter 6 (SIB Rules). The application satisfies all requirements of the rules, including passage by the WSC of a resolution authorizing submission of the application to the Texas Department of Transportation (department).

The intended use of the financial assistance conforms to the purposes of the SIB. The WSC intends to use the financial assistance to pay the WSC's costs of utility relocation for a non-tolled state highway improvement project to widen US 175 in Cherokee County, Texas (project).

The present and projected financial condition of the SIB is sufficient to cover the requested financial assistance for the project.

The WSC has proposed a pledge of contract revenues and water revenues as security for repayment of the loan.

In accordance with the SIB Rules, the executive director has negotiated all the terms of an agreement as necessary to protect the public's safety and to prudently provide for the protection of public funds while furthering the purposes of the SIB, as contained in the Term Sheet attached hereto as Exhibit A.

The SIB Rules allow for final approval by the Texas Transportation Commission (commission) of any SIB loan in the principal amount of \$10 million or less without first going through the preliminary approval process described in the SIB Rules if the financial assistance is to be used for a project for which the department has primary responsibility.

The SIB Rules allow the commission to make its final approval contingent on further actions by the WSC to assure repayment of the SIB loan.

The executive director or his designee implemented actions authorized and required by the SIB Rules for final approval. The executive director affirms that the necessary social, economic, and environmental impact studies have been completed and approved by the department. The executive director recommends that the commission grant final approval of the WSC's application for financial assistance from the SIB, contingent on the execution of a utility agreement between the WSC and the department prior to entering into a financial assistance agreement for the SIB loan.

In accordance with the SIB Rules, the commission finds that:

1. the project is consistent with the Statewide Long-Range Transportation Plan and the metropolitan transportation plan developed by the applicable metropolitan planning organization;
2. the project is in a Clean Air Act attainment area and is consistent with the Statewide Transportation Improvement Program, with the conforming plan and Transportation Improvement Program for the MPO in which the project is located, and with the State Implementation Plan;
3. the project will improve the efficiency of the state's transportation systems;

- 4. the project will expand the availability of funding for transportation projects or reduce direct state costs;
- 5. the application shows that the WSC is likely to have sufficient revenues to assure repayment of the financial assistance;
- 6. providing financial assistance will protect the public’s safety and prudently provide for the protection of public funds, while furthering the purposes of the SIB; and
- 7. the project will provide for all reasonable and feasible measures to avoid, minimize, or mitigate for adverse environmental impacts.

IT IS THEREFORE DETERMINED AND ORDERED by the commission that the application submitted by the WSC for financial assistance in the form of a loan from the SIB meets the applicable requirements of the SIB Rules and, in accordance with those provisions, the commission grants final approval of the WSC’s application for a SIB loan under the terms in the Term Sheet attached hereto as Exhibit A in an amount not to exceed \$1,443,300 to pay the WSC’s costs of utility relocation necessary for the non-tolled project, contingent on the execution of a utility agreement between the WSC and the department prior to entering into a financial assistance agreement for the SIB loan.

IT IS FURTHER ORDERED by the commission that the executive director or his designee is directed and authorized to enter into a financial assistance agreement with the WSC which complies with the SIB Rules and which contains the terms in the Term Sheet attached hereto as Exhibit A.
