

**Notice Affording an Opportunity for a Public Hearing  
US 83/US 84 Y-Intersection  
From 0.5 mile north of the Intersection on US 84  
To 0.4 mile south of the Intersection on US 84  
CSJs: 0034-01-130  
Taylor County, Texas**

The Texas Department of Transportation (TxDOT) is proposing to reconstruct and improve the US 83/US 84 Y-Intersection south of Abilene from approximately 0.5 mile north of the intersection to approximately 0.4 mile south of the intersection in Taylor County, Texas. This notice advises the public that TxDOT is affording an opportunity for a public hearing on the proposed project.

This project is proposing to reconstruct and improve the US 83/US 84 Y-Intersection by building an overpass for US 84 for northbound and southbound lanes, adding U-turns for US 84 at the Y-Intersection, and building a direct connect ramp for US 83 northbound traffic to US 83 and US 84 northbound in the direction of Abilene. The short transition from the Y-Intersection on US 83 towards Tuscola to the project limit will be widened to two 12-foot travel lanes in each direction with 8-foot outer shoulders and a continuous center left-turn lane.

Approximately 11 acres of right of way (ROW) would be required for this proposed project. No residential or non-residential structures are anticipated to be displaced at this time. Information concerning services and benefits available to affected property owners and information about the tentative schedule for right-of-way acquisition and construction can be obtained from the TxDOT Abilene District Office by calling (325) 676-6800.

Any environmental documentation or studies, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Abilene District Office, 4250 N. Clack St., Abilene, TX 79601. Project materials are also available online at: <https://www.txdot.gov/inside-txdot/get-involved/about/hearings-meetings/abilene/101421.html>.

The project materials are written in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to review the project materials or submit information, please contact Tanya Brown, Abilene District PIO, at (325) 676-6817 no later than 4 p.m. CT, at least three business days before the date on which you would like to review the project materials or submit information. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

Any interested person may submit a written request for a public hearing on this project. Written comments from the public regarding the proposed project are also requested. Written hearing requests and comments may be submitted by mail to the TxDOT Abilene District Office, 4250 N. Clack St., Abilene, TX 79601, or by email to [Bryce.Wade@txdot.gov](mailto:Bryce.Wade@txdot.gov). All hearing requests and comments must be received on or before Thursday, April 21, 2022. A hearing will be held if ten or more individuals submit timely written requests for a hearing, or if an agency with jurisdiction over the project submits a timely written request for a hearing that is supported by reasons why a hearing will be helpful. Responses to comments received will be available online at [www.txdot.gov](http://www.txdot.gov), keyword search "US 83-US 84 Y-Intersection NAOPH", once they have been prepared.

If you have any general questions or concerns regarding the proposed project, please contact Michael Haithcock, P.E., (325) 676-6800, and [Michael.Haithcock@txdot.gov](mailto:Michael.Haithcock@txdot.gov).

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
