## Notice

### Final Environmental Assessment Available for Public Review

### EAST BRAKER LANE EXTENSION

### FROM DAWES PLACE TO SAMSUNG BOULEVARD

**CSJ: 0914-04-315**  
**TRAVIS COUNTY, TEXAS**

This notice advises the public that the City of Austin has issued a final environmental assessment (EA) for the proposed East Braker Lane Extension project, and that the final EA is available for public review. The proposed project would extend East Braker Lane from Dawes Place to Samsung Boulevard in Travis County, Texas. The approved final EA is on file and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the TxDOT Austin District Office, 7901 N. I-35, Austin, TX 78753. It is also available online at [AustinTexas.gov/EBrakerLane](https://www.austintexas.gov/EBrakerLane).

Pursuant to 23 CFR 771.119(h), TxDOT will issue a finding of no significant impact (FONSI) for this project no sooner than 30 days after the issuance of this notice of availability.

For further information or to request a copy of the approved final EA, please contact Matt Harold, City of Austin Project Manager, at 512-974-2964 or [matt.harold@austintexas.gov](mailto:matt.harold@austintexas.gov).

The EA is written in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to review the EA, please contact Jeff Stensland, Austin Transportation and Public Works Department, at (512) 978-1511 no later than 4 p.m. CT, at least three business days before the date on which you would like to review the EA. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
