

FONSI Notice of Availability

Notice

Finding of No Significant Impact Available for Public Review

FM 2001

From I 35 to SH 21

CSJ: 1776-02-018

Hays County, Texas

This notice advises the public that the Texas Department of Transportation (TxDOT) has issued a finding of no significant impact (FONSI) for the proposed FM 2001, and that the FONSI is available for public review. The proposed project would widen and realign FM 2001 from I 35 to SH 21 in Hays County, Texas.

The FONSI and approved final environmental assessment (EA) are on file and available for inspection at <https://www.txdot.gov/inside-txdot/get-involved/about/hearings-meetings/austin/060820.html>. For further information or to request a copy of the FONSI and/or approved final EA, please contact Andrew Morosky, Senior Project Manager at HNTB for Hays County's General Engineering Consultant at 512-691-2219 or amorosky@hntb.com.

The FONSI and EA are written in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to review the FONSI or EA, please contact Andrew Morosky, Senior Project Manager at HNTB for Hays County's General Engineering Consultant at 512-691-2219 or amorosky@hntb.com no later than 4 p.m. CT, at least three business days before the date on which you would like to review the FONSI or EA. Please be aware that advance notice is required as some services and accommodations may require time for Hays County to arrange.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.
