

US 281 Blanco Relief Route Feasibility Study

Project Fact Sheet

About the Project

At the request of the city of Blanco and Blanco County, TxDOT is initiating the US 281 Blanco Relief Route Feasibility Study to develop and evaluate preliminary relief route options to enhance safety and improve mobility along US 281 in the city of Blanco.

The purpose of this study, in collaboration with local stakeholders and the public, is to arrive at a locally recommended relief route option. Further project development, including schematic design, environmental review, and funding would depend on the outcome of the feasibility study.

Estimated Study Milestones

This study is anticipated to be complete at the end of 2024.*

Study Milestone	2023				2024			
	Winter	Spring	Summer	Fall	Winter	Spring	Summer	Fall
Define Study Area and Goals	Identify Route Options				Evaluate Route Options		Identify Locally Recommended Option	
Stakeholder & Public Engagement		█	█		█		█	

*Timeline is subject to change.

Related studies - US 281 from US 290 to the Comal County Line

TxDOT is developing preliminary plans to improve 19 miles of US 281 from US 290 to the Comal County line in Blanco County, Texas, including the US 281/US 290 interchange. This study excludes any improvements to the existing four-lane segment of US 281 through the city of Blanco and excludes the study of a relief route around the city of Blanco.
