

US 290 Giddings Mobility Study

Project Fact sheet

About the Project

At the request of the Giddings City Council and Lee County Commissioners Court, TxDOT has initiated the US 290 Giddings Mobility Study to develop and evaluate preliminary options to improve mobility, safety and emergency response times and to address conflicts with the railroad in the City of Giddings in Lee County. The proposed improvements through this study would address current traffic issues in downtown Giddings and plan for future growth. The purpose of this study, in collaboration with local stakeholders and the public, is to arrive at locally recommended improvement options to address current and future needs. Further project development, including schematic design, environmental review and funding, would depend on the outcome of the mobility study.

Estimated Study Milestones

This study is anticipated to be complete in 2025.*

	2023		2024			2025	
	Summer/Fall		Winter/Spring	Summer	Fall	Winter	Spring
Study Milestone	Develop Study Area and Goals		Identify & Evaluate Relief Route/Mobility Improvement Options			Identify Locally Recommended Options	
Stakeholder & Public Engagement		■	■		■		■
