

NOTICE OF VIRTUAL PUBLIC MEETING WITH IN-PERSON OPTION THURSDAY, DEC. 9, 2021 FM 565 IMPROVEMENT PROJECT

The TxDOT Beaumont District will host a virtual public meeting with in-person option to gather input on the proposed FM 565 Improvement Project, which includes reconstructing and improving FM 565 in Chambers County, Texas from State Highway (SH) 99 to SH 146.

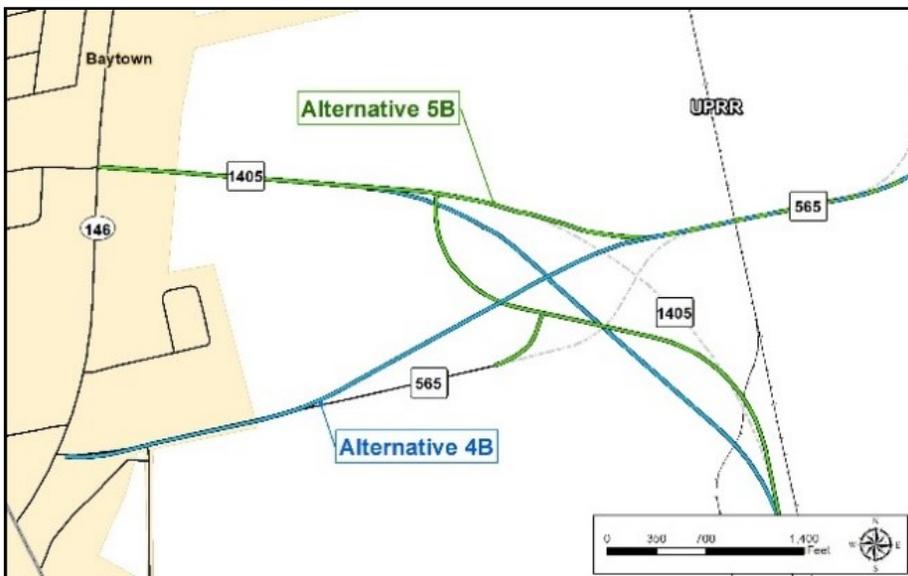

The virtual meeting will consist of a pre-recorded video presentation including both audio and visual components. In-person attendees will be able to view the same presentation delivered in the virtual public meeting, review hard copies of project materials, and ask questions of TxDOT staff and/or consultants from a socially distanced approach.

The purpose of this project is to improve safety and mobility in the project area. FM 565 is inadequate to meet current and future traffic resulting in congestion and reduced mobility, does not have designated turn lanes and does not meet current design standards.

The approximately 2.9-mile proposed project would reconstruct, re-align, and widen the existing two-lane roadway to accommodate two 12-foot travel lanes in each direction, a 16-foot raised median, and 10-foot outside shoulders. A new FM 565 bridge overpass would be constructed over the Union Pacific Railroad, thus eliminating the at-grade crossing, and sidewalks are proposed in certain locations.

The proposed project would, subject to final design considerations, require additional right of way and potentially displace 2 residential structures.

The virtual public meeting will be conducted in English. Persons with special communication or accommodation needs, or who require an interpreter, are encouraged to contact TxDOT Public Information Officer Sarah Dupre at (409) 898-5745. Requests should be made at least three days before the event. For more information or if you do not have internet access, call (409) 898-5732.
