

SH 124 PROJECT HILLEBRANDT BAYOU BRIDGE CLOSURE AND CONSTRUCTION DETOUR

FACT SHEET

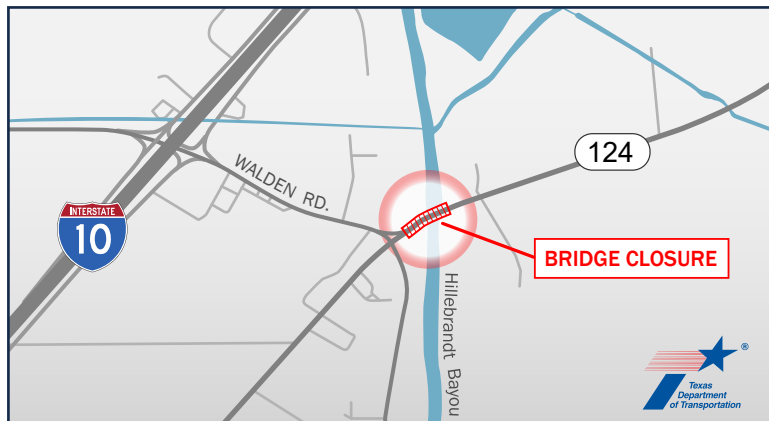

Project Overview

TxDOT is moving forward with the removal and replacement of the Hillebrandt Bayou bridge on SH 124. The bridge replacement project runs parallel to I-10 near Walden Road in Beaumont, Jefferson County.

Proposed Benefits

The proposed project is anticipated to improve safety by bringing the bridge up to current design standards.

Project Location Map

Construction will require approximately an eight-mile detour and TxDOT recommends motorists use Major Drive as a detour route. The project will begin in January 2022 and will last until late 2022, pending weather or unforeseen delays.

Proposed Improvements

The project is approximately a tenth of a mile in length and includes:

- Replacing the Hillebrandt Bayou bridge with a similar design
- Adding modern railings
- Adding sidewalks on the westbound side (north upstream)

This construction will require a **complete closure** of the Hillebrandt Bayou bridge. Detour maps are featured on the reverse side.

Next Steps

- Project construction begins approximately: January 2022
- Construction completion: Late 2022
