PROJECT OVERVIEW

TxDOT, in collaboration and partnership with the Border Trade Advisory Committee, is working with U.S. and Mexican agencies and stakeholders to update the Texas-Mexico Border Transportation Master Plan (BTMP).

During the development of the plan, TxDOT hosted a series of meetings throughout the border region to gather public input on capacity and operational improvements to the existing multimodal transportation infrastructure in the border region. Now, you are invited to review and provide us your comments on the draft BTMP.
